All securities issued and issuable pursuant to the Hard Dollar Offering and Flow-through Offering will be subject to a four month and one day statutory hold period from the respective closing dates.

The Corporation intends to use the net proceeds from the Hard Dollar Offering and Flow Through Offering first on a 5,000 metre drill program on the Good Hope Niobium Project which has been contracted to begin on March 9, 2018 and next on exploration work and for general working capital purposes.

## The Hard Dollar Offering

Each Unit consists of one (1) common share in the capital stock of Plato (‘Common Share’) and one-half of a common share purchase warrant (a ‘Warrant’). Each Warrant entitles the holder to purchase one common share at a price of CAN\$0.10 per common share until the date which is twenty-four (24) months following the closing date of the First, Second, and Third Tranche respectively, whereupon the Warrants will expire. If the weighted average trading price of the Corporation’s common shares on the Corporation’s principal stock exchange closes at a minimum of \$0.10 per share for a period of five (5) consecutive trading days, the Corporation may accelerate the expiry date of the Warrants to the date which is 30 days following the date upon which notice of the accelerated expiry date is provided by the Corporation to the holders of the Warrants.

In connection with the closing of the First Tranche, eligible institution finders have been paid finders fees of \$1,050 and in connection with the closing of the Second Tranche, eligible institution finders (‘Second Tranche Finders’) have been paid finders fees of \$11,090. In addition, the Second Tranche Finders received 154,000 finder’s warrants (the ‘Finder’s Warrants’) equal to 7% of the total number of Units sold pursuant to the Second Tranche. Each Finder’s Warrant is exercisable into one Unit at an exercise price of \$0.10 at any time prior to the date that is twenty-four (24) months following the closing date of the Second Tranche, whereupon the Finder’s Warrants will expire.

## The Flow Through Offering

Each Flow Through Share is to be issued on a flow-through basis. A subscription for Flow Through Shares will entitle the holder to a renunciation of Canadian Exploration Expenses and to claim certain deductions in respect thereof for income tax purposes.

This press release does not constitute an offer to sell or a solicitation of an offer to buy any of the securities in the United States. The securities have not been and will not be registered under the United States Securities Act of 1933, as amended, (the "U.S. Securities Act") or any state securities laws and may not be offered or sold within the United States or to or for the account or benefit of a U.S. person (as defined in Regulation S under the U.S. Securities Act) unless registered under the U.S. Securities Act and applicable state securities laws or an exemption from such registration is available.
