

Wallbridge Mining Strengthens Its Mining Team

29.05.2018 | [CNW](#)

TORONTO, May 29, 2018 /CNW/ - [Wallbridge Mining Company Ltd.](#) (TSX: WM, FWB: WC7) ("Wallbridge" or the "Company") is pleased to announce the appointment of Mr. Francois (Frank) Demers as Vice President Mining & Projects.

Mr. Demers brings to Wallbridge a wealth of experience in the mining industry, spanning close to 20 years. During his career, Mr. Demers has held progressively more responsible roles in both operations and management. Most recently Mr. Demers was General Manager of KGHM International Ltds. Sudbury operations. Prior to that, he held positions of Mine Manager at the Totten Mine and the Creighton Mine, also in Sudbury, Ontario.

Mr. Demers's expertise includes managing small and large mining operations with teams of engineers and operators as well as experience in developing business growth plans. Mr. Demers holds a Bachelor's Degree in Mining Engineering.

"This is a pivotal time in the growth of Wallbridge, as we progress our Fenelon Gold Project in Quebec through a bulk sample, while at the same time we also advance our growth strategy both in Quebec and in Sudbury", stated Marz Kord, President & CEO of Wallbridge. "The addition of Frank to our management team gives us the capacity to move forward aggressively, build upon our considerable assets, and move Wallbridge to the next level in the transition of our company to a sustainable producer. Frank's extensive experience will be invaluable as we explore opportunities for future growth. I look forward to working with Frank as we grow this company."

About Wallbridge Mining

Wallbridge is working to establish a pipeline of projects that will support sustainable production and revenue as well as organic growth through exploration and scalability.

Wallbridge is currently developing its 100%-owned high-grade Fenelon Gold property in Quebec with ongoing exploration and a bulk sample in 2018. Wallbridge is also pursuing other additional advanced- stage projects which would add to the Company's near term project pipeline. These discussions benefit from the operating capabilities Wallbridge demonstrated by safely and efficiently mining the Broken Hammer deposit in Sudbury, which was completed in October 2015. Wallbridge is also continuing partner-funded exploration on its large portfolio of nickel, copper, and PGM projects in Sudbury, Ontario, with a focus on its high-grade Parkin project.

Wallbridge also has exposure to active exploration for copper and gold in Jamaica and British Columbia through its 11.5% ownership of [Carube Copper Corp.](#) (CUC:TSX-V, formerly Miocene Resources Limited).

This press release may contain forward-looking statements (including "forward-looking information" within the meaning of applicable Canadian securities legislation and "forward-looking statements" within the meaning of the US Private Securities Litigation Reform Act of 1995) relating to, among other things, the operations of Wallbridge and the environment in which it operates. Generally, forward-looking statements can be identified by the use of words such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or statements that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved". Wallbridge has relied on a number of assumptions and estimates in making such forward-looking statements, including, without limitation, the costs associated with the development and operation of its properties. Such assumptions and estimates are made in light of the trends and conditions that are considered to be relevant and reasonable based on information available and the circumstances existing at this time. A number of risk factors may

cause actual results, level of activity, performance or outcomes of such exploration and/or mine development to be materially different from those expressed or implied by such forward-looking statements including, without limitation, whether such discoveries will result in commercially viable quantities of such mineralized materials, the possibility of changes to project parameters as plans continue to be refined, the ability to execute planned exploration and future drilling programs, the need for additional funding to continue exploration and development efforts, changes in general economic, market and business conditions, and those other risks set forth in Wallbridge's most recent annual information form under the heading "Risk Factors" and in its other public filings. Forward-looking statements are not guarantees of future performance and such information is inherently subject to known and unknown risks, uncertainties and other factors that are difficult to predict and may be beyond the control of Wallbridge. Although Wallbridge has attempted to identify important risks and factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors and risks that cause actions, events or results not to be as anticipated, estimated or intended. Consequently, undue reliance should not be placed on such forward-looking statements. In addition, all forward-looking statements in this press release are given as of the date hereof.

Wallbridge disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, save and except as may be required by applicable securities laws. The forward-looking statements contained herein are expressly qualified by this disclaimer. [Contact](#)
