

# Durango Resources Inc. Exploration Team Returns to Windfall Lake, Qc

04.06.2018 | [The Newswire](#)

Vancouver, June 4, 2018 - [Durango Resources Inc.](#) (TSX.V-DGO) (Frankfurt-86A1) (OTCQB-ATOXF), (the "Company" or "Durango") is pleased to report that further to the news of May 30, 2018, the Company has initiated its second phase of till sampling and mapping on its wholly owned Windfall Lake properties.

The most prospective area with the reported assay results of 3,480 ppb gold will undergo additional soil and rock sampling. This area requires further definition to outline and develop a clear gold exploration target for drilling.

Additional areas which were unreachable due to weather conditions in November 2017 will also undergo till sampling and mapping this week. The crew is expected to complete the program within 10 days and further results will be announced as they become available.

Marcy Kiesman, President of Durango stated, "In light of the exciting assay results from the Windfall Lake till and soil sampling program, the second phase exploration program has been expedited as recommended by our geologist. We aim to have formulated drill targets produced on our Windfall Lake Properties in the near future."

George Yordanov, P.Geo stated, "Durango is positioned for discovery with gold mineralization in the area being structurally controlled by a northeast trending deformation corridor and Durango's property being cross cut by a fault system striking towards the Windfall Lake main mineralized system."

The technical contents of this news release were approved by George Yordanov, P.Geo, a "Qualified Person" as defined by National Instrument 43-101.

## About Durango

Durango is a natural resources company engaged in the acquisition and exploration of mineral properties. The Company has a 100% interest in the Mayner's Fortune limestone properties in northwest British Columbia, the Decouverte and Trove gold properties in the Abitibi Region of Quebec, and certain lithium properties near the Whabouchi mine, the Buckshot graphite property near the Miller Mine in Quebec, the Dianna Lake silver project in northern Saskatchewan, and the Whitney Northwest property near the Lake Shore Gold and Goldcorp joint venture in Ontario.
