

Clean TeQ Sunrise Project – Modification 6 Approval

05.06.2018 | [GlobeNewswire](#)

MELBOURNE, Australia, June 05, 2018 (GLOBE NEWSWIRE) -- Mr Sam Riggall, CEO of [Clean TeQ Holdings Ltd.](#) (Clean TeQ or the Company) (ASX:CLQ) (TSX:CLQ) (OTCQX:CTEQF) is pleased to advise that the New South Wales Department of Planning and Environment (DPE) has formally approved Modification 6 to the Development Consent for the Clean TeQ Sunrise Project (Project). The approval is an important milestone as planning and execution of the Project's early works progresses.

Proposed location of Clean TeQ Sunrise accommodation facility

Clean TeQ submitted Modification 6 in January 2018 seeking changes to the accommodation facility at the Project which were deemed necessary to both optimise the mine plan and improve the amenity of the on-site workforce. The changes included the relocation of the accommodation facility from the main mine site to an adjacent property south of the mine on a property owned by Clean TeQ called "Sunrise"; (see Figure 1).

Approval of Modification 6 will also allow Clean TeQ to use the camp for up to approximately 300 personnel during site-based campaigns such as shutdowns and maintenance. In addition, the Modification permits an increase in the camp's capacity from approximately 1,000 to 1,300 personnel during the construction phase.
