

East Africa Metals Files NI 43-101 Technical Reports for Three Ethiopian Gold Projects

13.06.2018 | [GlobeNewswire](#)

VANCOUVER, British Columbia, June 12, 2018 (GLOBE NEWSWIRE) -- [East Africa Metals Inc.](#) (TSX Venture:EAM) ("East Africa" or the "Company") announces that it has filed with the Canadian securities regulators, three separate NI 43-101 Technical Reports (the "Technical Reports") each with an effective date of April 30, 2018, in support of the Preliminary Economic Assessment Reports for the Mato Bula Gold-Copper Project, Terakimti Heap Leach Gold Project and Da Tambuk Underground Gold Project, all located in the Federal Democratic Republic of Ethiopia. (see East Africa News Release dated April 30, 2018).

The Technical Reports are a requirement of Canadian Securities Regulators. The Technical Reports were prepared by Tetra Tech Canada Inc. ("Tetra Tech"). The complete reports can be found on SEDAR at www.sedar.com and East Africa's website at www.eastafricametals.com.

Cautionary Statement Regarding Forward-Looking Information

This news release contains "forward-looking information" within the meaning of applicable Canadian securities legislation. Generally, forward-looking information can be identified by the use of forward-looking terminology such as "anticipate", "believe", "plan", "expect", "intend", "estimate", "forecast", "project", "budget", "schedule", "may", "will", "could", "might", "should" or variations of such words or similar words or expressions. Forward-looking information is based on reasonable assumptions that have been made by East Africa as at the date of such information and is subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of East Africa to be materially different from those expressed or implied by such forward-looking information, including but not limited to: early exploration; mineral exploration and development; engineering study assessments and results, metal and mineral prices; availability of capital; accuracy of East Africa's projections and estimates, including the mineral resources for the Adyabo and Harvest; estimated timing of receipt of the Adyabo mining licence applications and/or exploration licence extensions, interest and exchange rates; competition; stock price fluctuations; availability of drilling equipment and access; actual results of current exploration activities; government regulation; political or economic developments; foreign taxation risks; environmental risks; insurance risks; capital expenditures; operating or technical difficulties in connection with development activities; the speculative nature of strategic metal exploration and development including the risks of diminishing quantities of grades of reserves; contests over title to properties; and changes in project parameters as plans continue to be refined, as well as those risk factors set out in East Africa's management's discussion and analysis for the year end December 31, 2017, and East Africa's listing application dated July 8, 2013. Forward-looking statements are based on assumptions management believes to be reasonable, including but not limited to; the price of gold, silver, and copper; the demand for gold, silver, copper and zinc; the ability to carry on exploration and development activities; the timely receipt of any required approvals; the ability to obtain qualified personnel, equipment and services in a timely and cost-efficient manner; the ability to operate in a safe, efficient and effective manner; and the regulatory framework regarding environmental matters, the renewal or extension of exploration licences, and such other

assumptions and factors as set out herein. Although East Africa has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. The Company does not update or revise forward looking information even if new information becomes available unless legislation requires the Company do so. Accordingly, readers should not place undue reliance on forward-looking information contained herein, except in accordance with applicable securities laws.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
