

LithiumOre Appoints Ross Leisinger as Independent Advisor

28.06.2018 | [ACCESS Newswire](#)

Brings 30+ Years Experience in Exploration and Mining

INCLINE VILLAGE, June 28, 2018 / LithiumOre (<http://lithiumore.net>) (the "Company"), a wholly-owned subsidiary of [Oroplata Resources Inc.](#) (OTCQB: ORRP), a lithium resource exploration and development company, is pleased to announce it has brought on Ross Leisinger as an independent advisor.

Mr. Leisinger has more than 30 years of experience in the exploration and mining industry and has participated in numerous projects from initial project conception through production. He will be advising directly on environmental compliance, Mine Safety and Health, and will assist and oversee the permit acquisition process as the company ramps up plans for its lithium mining operation in the Western Nevada Basin.

Mr. Leisinger stated, "I am excited to be a part of the strong, resurgent interest in lithium mining, particularly within the U.S."

Doug Cole, Chairman and Chief Executive Officer of LithiumOre, commented, "As we advance our goal of becoming one of the largest and most sustainable lithium production companies in the U.S., we are pleased to secure someone with Mr. Leisinger's mining industry experience and expertise in environmental and permit compliance. Mr. Leisinger also has decades of experience liaising with local and federal authorities as well as establishing and operating mining businesses in Nevada and abroad. We intend to leverage these relationships and his breadth of knowledge to the fullest within this sector."

LithiumOre holds 260 accepted lithium mineral claims, totaling 5,200 acres, located in the Western Nevada Basin, situated in Railroad Valley in Nye County, Nevada. Railroad Valley is approximately 112 miles northeast of Clayton Valley and can be accessed by paved highway directly from U.S. Route 6. Railroad Valley is one of Nevada's largest trapped basins and is noted to hold all the necessary commercial and engineering prerequisites for a massive lithium brine deposit. The Company's claims have been evaluated by experts and the BLM and are targeted for planned on-site exploration expected to begin by mid-2018.

LithiumOre, Corp.

LithiumOre (<http://lithiumore.net>), a wholly-owned subsidiary of [Oroplata Resources Inc.](#) (OTCQB: ORRP), is a lithium resource exploration and development company, whose primary focus is the establishment of a low cost, environmentally sound production base to supply the rapidly growing lithium-ion battery industry for both mobile devices and laptops, as well as the burgeoning EV (electric vehicle) industry. LithiumOre is focused on becoming a substantial, profitable lithium producer via the timely development of valuable production-grade lithium brine deposits in Nevada.

Forward-Looking Statements

This press release contains "forward-looking statements" within the meaning of the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical fact, including those with respect to the expected project economics for Western Nevada Basin (Railroad Valley), including estimates of life of mine, average production, cash costs, AISC, initial CAPEX, sustaining CAPEX, pre-tax IRR, pre-tax NPV, net cash flows and recovery rates, the impact of self-mining versus contract mining, the timing to obtain necessary permits, the submission of the project for final investment

approval and the timing of initial gold production after investment approval and full financing, metallurgy and processing expectations, the mineral resource estimate, expectations regarding the ability to expand the mineral resource through future drilling, ongoing work to be conducted at the Western Nevada Basin (Railroad Valley), and the potential results of such efforts, the potential commissioning of a Pre-Feasibility study and the effects on timing of the project, are "forward-looking statements." Although the Company's management believes that such forward-looking statements are reasonable, it cannot guarantee that such expectations are, or will be, correct. These forward-looking statements involve a number of risks and uncertainties, which could cause the Company's future results to differ materially from those anticipated. Potential risks and uncertainties include, among others, interpretations or reinterpretations of geologic information, unfavorable exploration results, inability to obtain permits required for future exploration, development or production, general economic conditions and conditions affecting the industries in which the Company operates; the uncertainty of regulatory requirements and approvals; fluctuating mineral and commodity prices, final investment approval and the ability to obtain necessary financing on acceptable terms or at all. Additional information regarding the factors that may cause actual results to differ materially from these forward-looking statements is available in the Company's filings with the Securities and Exchange Commission, including the Annual Report on Form 10-K for the year ended September 30, 2017. The Company assumes no obligation to update any of the information contained or referenced in this press release.
