About the Company

[Canamex Gold Corp.](#) is a public listed company registered in British Columbia, Canada, trading on the Canadian Securities Exchange (CSE), and is engaged in fast-tracking toward development of the Bruner Gold Development Project in the prolific gold jurisdiction of Nye County, Nevada. The region is home to several producing and past-producing mines along the Walker Lane Trend. Canamex completed a positive Preliminary Economic Assessment (PEA) on the Bruner Gold Development Project in 2016. Based on additional drilling conducted on the property, the company completed an updated PEA in 2018, which increased the resources and improved the economics of the project. Canamex is now moving the Bruner Gold Project forward into permitting and development on the strength of this positive updated PEA and the improving gold price environment. The second asset is the Silverton Gold property, a gold exploration project, in Nevada, which has geological similarities to the Long Canyon gold deposit in Nevada, being

mined by Newmont Mining. The Company has signed Agreements with Harmonychain AS, for Ethereum Blockchain Smart Contract Security Tokens for Gold and Silver, as an alternative means of raising capital, potentially without equity dilution. The Agreements secure the exclusive rights to various Ethereum Token domain names, ticker codes, and associated smart contracts, for Gold and Silver. The rights also extend to patents pending and trademarks associated with these security token financing models, including ChainDelivery(TM) royalty stream delivery queuing systems.
