

CORRECTING and REPLACING -- Golden Ridge Resources Begins Drill Program at Hank

03.07.2018 | [GlobeNewswire](#)

Please note that the release issued earlier today by [Golden Ridge Resources Ltd.](#) (TSXV:GLDN) under the headline "Golden Ridge Resources Mobilizes for Hank Drilling and Exploration Program" should be replaced by this release.

The correct release follows:

Golden Ridge Resources Begins Drill Program at Hank

KELOWNA, July 03, 2018 - [Golden Ridge Resources Ltd.](#) ("Golden Ridge" or the "Company") (TSXV:GLDN) is pleased to announce that drilling has commenced at its Hank project located in BC's Golden Triangle. The first hole will test the Williams Zone, a newly discovered alkalic Cu-Au porphyry system centered on a potassic altered, 400m diameter breccia pipe. A second drill rig is currently on site and will begin testing the newly discovered Kaip Zone which returned 21.62m of 6.26g/t Au and 52.1g/t Ag in hole HNK-17-009 (see June 8, 2018 press release).

Program Highlights:

- A minimum of 6,000 meters of core drilling is planned for 2018 which will test five new high priority targets (see March 3, 2018 press release).
- The 2018 program will satisfy the remaining approximate \$100,000 in exploration expenditures required to earn a 100-per-cent interest in the Hank property from Lac Properties Inc. (subsidiary of [Barrick Gold Corp.](#)).
- Golden Ridge recently completed its exploration camp on Highway 37, within 15 kilometres of the project, which will minimize flight time and maintain low-cost highway access for the 2018 campaign.

About Golden Ridge Resources:

Golden Ridge is a TSX-V listed exploration company engaged in acquiring and advancing mineral properties located in British Columbia. Golden Ridge currently has an option to acquire a 100% interest in the 1,700-hectare Hank gold-silver-lead-zinc property located in the Golden Triangle district, approximately 140 kilometres north of Stewart, British Columbia. Golden Ridge may earn the 100% interest in the Hank property by performing \$1.7M of exploration work by the end of 2018.
