03.08.2018 | [GlobeNewswire](#)

KINGSTON, Ontario, Aug. 03, 2018 -- [Focus Graphite Inc.](#) ("Focus") (TSX-V:FMS) (OTCQX:FCSMF) (FSE:FKC) is pleased to report that the technical report by DRA\Met-Chem on the Kwyjibo project PEA is now available on [www.sedar.com](#) under [Focus Graphite Inc.](#) The summary results of the PEA were released by the Company and joint-venture partner SOQUEM Inc. on June 28 (refer to Focus news release dated June 28, 2018, available at [www.focusgraphite.com](#)).

Key components of the recently SEDAR filed technical report outline the Kwyjibo project's potential as a supplier for some of the most highly sought after rare earth elements, such as Neodymium, to meet the burgeoning demand for electric motors, energy storage solutions and electric vehicles around the globe.

Gary Economo, CEO of Focus Graphite states: "With Neodymium being a highly sought after rare earth element being used in the permanent magnet motors of electric vehicles such as Tesla's Model 3 Long Range, we are excited by this report on the Kwyjibo project. Not only is it a validation of our commitment to being a key player in supplying the critical rare earth elements used to power the technologies of the future; but it also demonstrates our commitment to building the key partnerships that will make our goal a reality."
