

ADM Opens Technical Innovation Center in Shanghai

16.08.2018 | [Business Wire](#)

[Archer Daniels Midland Company](#) (NYSE: ADM) today celebrated the opening of its new regional office and state-of-the-art flavor and ingredient creation, application, development and customer innovation center in Shanghai, China. The opening of the space was announced at a dedication and ribbon-cutting ceremony.

“With today’s busy lifestyles, people are turning to healthier eating habits, accelerating changes in consumer tastes and preferences at an unprecedented rate. For ADM, Shanghai has played a critical role in our continued growth and innovation. To help Asia-Pacific food and beverage customers remain a step ahead, we’re excited to leverage our technology, expertise and global scale,” said Donald Chen, ADM’s president, Asia.

Shanghai’s technical innovation center will enable ADM to work closely with customers to create complete flavor and specialty ingredient solutions. It will be staffed by a team of food scientists, flavorists and applications experts, along with sales, marketing and regulatory personnel. The new Shanghai facility joins our recently opened Singapore Innovation Center in helping ADM meet growing demand in the region.

“Around the world, ADM continues to invest to ensure that we are the go-to solution providers for clean label, sustainable ingredients and great taste,” said Vince Macciocchi, president of ADM’s Nutrition business. “This new facility enhances our portfolio and capabilities ensuring our customers meet consumer demands for new, innovative food and beverages.”

The new innovation center features a wide range of capabilities, including a food and flavor analytic lab; beverage and dairy applications labs and pilot plants; a bakery lab; a confectionery and personal care lab; a culinary kitchen; flavor creation labs; sensory evaluation facilities; and a customer innovation center.

China is home to approximately 675 ADM employees, with application labs in Beijing, Shanghai and Guangzhou; a flavor production facility in Beijing; sweeteners and soluble fiber complex in Tianjin; animal nutrition facilities in Dalian, Tianjin, Nanjing, Zhangzhou and Xiangtan. ADM has more than 1,000 employees throughout the wider Asia-Pacific region, where the company operates a wide range of processing facilities, including several animal feed facilities; a flavor and ingredient facility; food and flavor labs in Japan, Singapore and Australia; and sales offices in every major market in the region.

About ADM Nutrition

ADM is a world-leading nutrition company with the widest range of specialty ingredients, blends, systems and experience. We move customers from concept to launch faster with sustainable, differentiated products that address their evolving needs. ADM helps our customers create consumer-preferred nutritional solutions through our on-trend and customizable portfolio of natural flavors and colors; an unmatched range of plant-based proteins; industry-leading, science-backed bioactives; as well as specialty ingredients such as hydrocolloids, lecithin, Omega-3 solutions, probiotics, polyols, texturants, soluble fibers and much more. Our talented team also provides consumer insights and intelligence; sensory expertise; culinary creativity; and full product-development services.

About ADM

For more than a century, the people of [Archer Daniels Midland Company](#) (NYSE: ADM) have transformed crops into products that serve the vital needs of a growing world. Today, we’re one of the world’s largest agricultural processors and food ingredient providers, with approximately 31,000

employees serving customers in more than 170 countries. With a global value chain that includes approximately 500 crop procurement locations, 270 ingredient manufacturing facilities, 44 innovation centers and the world's premier crop transportation network, we connect the harvest to the home, making products for food, animal feed, industrial and energy uses.
