

Nevado announces the appointment of two new directors

19.09.2018 | [GlobeNewswire](#)

MONTREAL, Sept. 19, 2018 - [Nevado Resources Corp.](#) (TSXV: VDO.H) ("Nevado" or the "Corporation") today announced the appointment of Tyson King and Doug Walden to its board of directors.

Mr. King has over 10 years experience in the management of junior companies within the commodities and natural resource sector. He has been actively engaged in overseeing the day-to-day operations of numerous companies where he specialized in marketing and corporate development. Mr. King is currently Vice President and a director of Miramont Resources, a CSE listed company with exploration properties in Peru. Mr. King holds a BA in economics from the University of Calgary.

Mr. Walden has a wealth of experience in strategic planning and execution, business operations and brand renewal in both the public and private sectors. In addition to his background in operating organizations at a CEO/General Management level, Doug brings considerable skill in organizational leadership, business development and operational and fiscal management. Over the last twenty years, Mr. Walden has been focused as a consultant in the small to medium market (SME's), as a business growth architect and strategist for a variety of companies and industries. He holds a Bachelor of Commerce from the University of British Columbia and as a community volunteer, has Board experience with a number of profit and non-profit organizations (West Vancouver Police Board, BC Association of Police Boards, Burnaby Hospital Foundation, Family Services of Greater Vancouver and The Meraloma Athletic Club).

Jean-Guy Masse, President and CEO of Nevado, said: "I would like to welcome Tyson and Doug to our board. Their expertise and experience will provide significant enhancement to the board's skill set and will contribute to our goal of growing the Company."

About Nevado Resources Corporation

[Nevado Resources Corp.](#) is a Canadian mineral exploration company engaged in the exploration, evaluation and development of gold mining properties.
