

# Great Panther Silver Announces Filing of NI 43-101 Technical Report for the Tucano Gold Mine

06.11.2018 | [CNW](#)

TSX: GPR  
NYSE American: GPL

VANCOUVER, Nov. 6, 2018 - [Great Panther Silver Ltd.](#) (TSX: GPR; NYSE American: GPL) ("Great Panther"; the "Company") today reports it has filed a National Instrument 43-101 Technical Report entitled Mineral Resource and Reserve Update for the Tucano Gold Mine dated October 31, 2018 (the "Technical Report") on the Tucano Gold Mine in connection with the proposed acquisition of [Beadell Resources Ltd.](#) ("Beadell"), as announced in the Company's September 23, 2018 news release ("Acquisition"). The Technical Report is available on SEDAR and EDGAR.

AMC Mining Consultants (Canada) Ltd. ("AMC") prepared the Technical Report in accordance with the requirements of National Instrument 43-101 "Standards of Disclosure for Mineral Projects" of the Canadian Securities Administrators. The Technical Report discloses Mineral Reserves and Mineral Resources (the "Reserves and Resources") for the Tucano Gold Mine that is set out in Appendix A.

The Technical Report includes recommendations by the Qualified Persons ("QPs") regarding:

- Upgrading existing Mineral Resources;
- Locating near-mine mineralization;
- Identifying new regional targets; and
- Advancing the underground mine study.

Beadell has advised the Company that the Reserves and Resources for the Tucano Gold Mine will be updated in the future and are likely to change during that process. Factors that will influence these changes may include, but not be limited to, depletion of mineral resources through mining activities, changes to the Reserve and Resource modelling parameters, and additional drilling information. The impact of these updates is uncertain; however, the Company anticipates that it may result in a reduction of the Reserve and Resource figures reported in Appendix A.

The Company advises readers that there are corrections to Beadell's previously disclosed Reserves and Resources. The previously reported Proven and Probable Mineral Reserves for Urucum Underground reported in the September 23, 2018 news release incorrectly stated the tonnage and grade, resulting in an overstatement of approximately 67 k ounces of contained gold. The Tucano Gold Mine is currently an open pit operation and does not include the Proven and Probable Mineral Reserves for Urucum Underground reported in the current mine plan.

Readers are also advised that Appendix A to this news release excludes Mineral Resources associated with the Tartaruga Mine. The previously reported Inferred Mineral Resources associated with Tartaruga (6,451 kt of 1.63 g/t gold for 337 k ounces of contained gold) are historical in nature, have not been prepared in accordance with NI 43-101, and are not being relied upon by the Company.

The technical information contained in this news release has been reviewed and approved by Robert F. Brown, P. Eng., a Qualified Person for Great Panther's projects under the meaning of NI 43-101.

## ABOUT GREAT PANTHER

[Great Panther Silver Ltd.](#) is a primary silver mining and exploration company listed on the Toronto Stock Exchange trading under the symbol GPR, and on the NYSE American under the symbol GPL. Great Panther's current activities are focused on

of precious metals from its two wholly-owned operating mines in Mexico: the Guanajuato Mine Complex and the Topia Company is also advancing towards a decision to restart the Coricancha Mine in Peru with the initiation of a Bulk Sample following the completion of a positive Preliminary Economic Assessment in May 2018. In addition, the Company has signed an agreement to acquire all of the issued ordinary shares of gold producer [Beadell Resources Ltd.](#) The closing of this transaction will create a new emerging intermediate and growth-oriented precious metals producer focused on the Americas with strong geographic diversity across three leading mining jurisdictions, and a diverse asset portfolio including three producing mines, an advanced stage project, and significant exploration potential.

#### CAUTIONARY STATEMENT ON FORWARD-LOOKING STATEMENTS

This news release contains forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995 and forward-looking information within the meaning of Canadian securities laws (together, "forward-looking statements"). Such forward-looking statements include, but are not limited to, statements with respect to completion of the Acquisition, the outcome of the updating of such reserves and resources and the potential changes to such reserves and resources.

These forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause actual results, performance or achievements expressed or implied by such forward-looking statements to be materially different from those stated. Assumptions upon which forward looking statements relating to the Acquisition have been made include that Beadell Resources and Great Panther will be able to satisfy the conditions in the Agreement, that due diligence investigations of each party will not identify any materially adverse facts or circumstances, that the required approvals will be obtained from the shareholders of Beadell Resources and Great Panther, and that all required third party, regulatory and government approvals will be obtained.

Such factors include, among others, risks and uncertainties relating to potential political and social risks involving Beadell Resources and Great Panther's operations in a foreign jurisdiction, the potential for unexpected costs and expenses, fluctuations in metal prices, fluctuations in currency exchange rates, physical risks inherent in mining operations, operating or technical difficulties in mining or exploration, changes in project parameters as plans continue to be refined, and other risks and uncertainties, including those described in respect of Great Panther, in its annual information form for the year ended December 31, 2017 and material reports filed with the Canadian Securities Administrators available at [www.sedar.com](http://www.sedar.com) and reports on Form 40-F and Form F-43 filed with the Securities and Exchange Commission and available at [www.sec.gov](http://www.sec.gov).

There is no assurance that such forward-looking statements will prove accurate and results may vary materially from such forward-looking statements. Great Panther believes the assumptions underlying all such forward-looking statements are reasonable based on information currently available, however, they may prove to be incorrect. Readers are cautioned against undue reliance on forward-looking statements. Great Panther has no intention to update forward-looking statements unless required by law.

#### CAUTIONARY NOTE TO U.S. INVESTORS REGARDING MINERAL REPORTING STANDARDS

Great Panther prepares its disclosure in accordance with the requirements of securities laws in effect in Canada, which may differ from the requirements of U.S. securities laws. Terms relating to mineral resources and mineral reserves in this news release of Great Panther are defined in accordance with National Instrument 43-101-Standards of Disclosure for Mineral Projects and the guidelines set out in the Canadian Institute of Mining, Metallurgy, and Petroleum Standards on Mineral Resources and Reserves. The Securities and Exchange Commission (the "SEC") permits mining companies, in their filings with the SEC, to disclose only those mineral deposits that a company can economically and legally extract or produce. This news release uses certain terms, such as, "measured mineral resources", "indicated mineral resources" and "inferred mineral resources", which the SEC does not recognize (these terms may be used in this news release and are included in the public filings of Great Panther which have been filed with securities commissions or similar authorities in Canada).
