

Sama announces the beginning of drilling at the Yepleu property in Côte d'Ivoire, West Africa

15.11.2018 | [GlobeNewswire](#)

MONTREAL, Nov. 15, 2018 - [Sama Resources Inc.](#) ("Sama" or the "Company") (TSX-V: SME) is pleased to announce the beginning of the planned 6,000-meter ("m") drilling program designed to test high-conductivity targets defined by Phase 1 of the Typhoon[®] electromagnetic geophysical survey at the 100%-owned Yepleu property at the Company's Nickel-Copper-Cobalt-Palladium Project in Côte d'Ivoire, West Africa.

The drilling program is targeting semi-massive and massive polymetallic sulphide anomalies located between 600 m and 900 m from surface. Capital Drilling Côte d'Ivoire Limited is positioning the drill rig for the first hole.

"Mobilisation to the drill site in Yepleu was completed smoothly and preparations to commence drilling at the site are underway. We are excited to be working with Sama Resources on this project and look forward to commencing the drilling program," said Mr. Brian Rudd, Executive Director of Capital Drilling.

The Company's exploration objective is to delineate massive sulphide reservoirs that could be the source of high-grade nickel-copper-cobalt-palladium lenses intercepted in shallower boreholes at the Samapleu deposits.

About Sama Resources Inc.

Sama is a Canadian-based mineral exploration and development company with projects in West Africa. On October 23, 2017, Sama announced that it had entered into a binding term sheet in view of forming a strategic partnership with HPX TechCo Inc., a private mineral exploration company in which mining entrepreneur Robert Friedland is a significant stakeholder, in order to develop its Côte d'Ivoire Nickel-Copper and Cobalt project in Côte d'Ivoire, West-Africa. For more information about Sama, please visit Sama's website at <http://www.samaresources.com>.

The technical information in this release has been reviewed and approved by Dr. Marc-Antoine Audet, P.Geo and President and CEO of Sama, and a "qualified person", as defined by National Instrument 43-101 Standards of Disclosure for Mineral Projects.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

Forward-Looking Statements

Certain of the statements made and information contained herein are "forward-looking statements" or "forward-looking information" within the meaning of Canadian securities legislation. Forward-looking statements and forward-looking information are subject to a variety of risks and uncertainties which could cause actual events or results to differ from those reflected in the forward-looking statements or forward-looking information, including, without limitation, the availability of financing for activities, risks and uncertainties relating to the interpretation of drill results and the estimation of mineral resources and reserves, the geology, grade and continuity of mineral deposits, the possibility that future exploration, development or mining results will not be consistent with the Company's expectations, metal price fluctuations, environmental and regulatory requirements, availability of permits, escalating costs of remediation and mitigation, risk of title loss, the effects of accidents, equipment breakdowns, labour disputes or other unanticipated difficulties with or interruptions in exploration or development, the potential for delays in exploration or development activities, the inherent uncertainty of cost estimates and the potential for unexpected costs and expenses, commodity price fluctuations, currency fluctuations, expectations and beliefs of management and other risks and uncertainties.

In addition, forward-looking statements and forward-looking information are based on various assumptions. Should one or more of these risks and uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in forward-looking information or forward-looking statements. Accordingly, readers are advised not to place undue reliance on forward-looking statements or forward-looking information. Except as required under applicable securities legislation, the Company undertakes no obligation to publicly update or revise forward-looking statements or forward-looking information, whether as a result of new information, future events or otherwise.
