

Sparton Resources Inc. Private Placement Financing, Drilling Underway at Bruell Gold Project

17.12.2018 | [GlobeNewswire](#)

TORONTO, Dec. 17, 2018 - Sparton Resources Inc. (TSXV:SRI) ("Sparton" or the "Company") announced today that it has closed, effective December 14, 2018, a private placement financing totalling \$50,000 through the sale of 714,286 flow through shares to the same institutional accredited investor that recently took down a \$100,000 placement.

Each Flow Through Common Share is priced at \$0.07. The placement is non brokered and no finders fees or commissions are being paid.

Proceeds will be used for expenditures on the Company's Canadian Exploration Programs including drilling activities on the Bruell Project in the Val D'Or East Quebec gold area.

Resale of the shares is subject to normal restrictions under TSX Venture Exchange Policy and the transaction is subject to final regulatory approval.

Bruell Drilling

Drilling is underway at Bruell where six drill holes are planned, totalling approximately 1,000 metres to follow up on the gold mineralization located in last season's program. These will test the extensions at depth and laterally of the known zones and the new shear zone mineralization found in the final hole (SP 18-03) drilled last April. See Sparton News Release dated May 28, 2018 for details. The current program will involve vertical and lateral step out holes located 50 and 100 metres from hole SP 18-03. A map is posted on Sparton website www.spartonres.ca showing the new proposed drill hole locations.
