About Condor Gold plc:

[Condor Gold plc](#) was admitted to AIM in May 2006 and dual listed on the TSX in January 2018. The Company is a gold exploration and development company with a focus on Nicaragua.

In August 2018, the Company announced that the Ministry of the Environment in Nicaragua had granted the Company the Environmental Permit ("EP") for the development, construction and operation of a processing plant with capacity to process up to 2,800 tonnes per day at its wholly-owned La India gold project ("La India Project"). The EP is considered to be the master permit for mining operations in Nicaragua. Condor published a Pre-Feasibility Study ("PFS") on La India Project in December 2014, as summarised in the Technical Report (as defined below). The PFS details an open pit gold mineral reserve in the Probable category of 6.9 million tonnes ("Mt") at 3.0 g/t gold for 675,000 oz gold, producing 80,000 oz gold per annum

for seven years. La India Project contains a mineral resource in the indicated category of 9.6 Mt at 3.5 g/t for 1.08 million oz gold and a total mineral resource in the inferred category of 8.5 Mt at 4.5 g/t for 1.23 million oz gold. The indicated mineral resource is inclusive of the mineral reserve.
