

Nevada Exploration Announces Financing

09.01.2019 | [GlobeNewswire](#)

NOT FOR DISTRIBUTION TO U.S. NEWSWIRE SERVICES OR FOR DISSEMINATION IN THE UNITED STATES

VANCOUVER, Jan. 08, 2019 - [Nevada Exploration Inc.](#) ("NGE" or the "Company") (TSX-V: NGE; OTCQB: NVDEF) announces a non-brokered private placement offering of up to 2,000,000 units (the "Units") at a price of \$0.25 per Unit (the "Offering"), for total gross proceeds of up to \$500,000. Each Unit will consist of one common share in the capital of the Company (a "Common Share") and one-half of one Common Share purchase warrant (a "Warrant"), with each whole Warrant entitling the holder thereof to acquire an additional Common Share at an exercise price of \$0.45 per Common Share for 30 months after the date of issuance (the "Closing Date"). If the closing price of the common shares of NGE quoted on the TSX Venture Exchange is greater than \$0.80 for 10 consecutive trading days, NGE may accelerate the expiry date of the Warrants to the 30th day after the date on which NGE gives notice to the Warrant holders of such acceleration.

Proceeds from the Offering will be used to fund drilling at NGE's South Grass Valley Project and for general working capital. The Offering is subject to receipt of all necessary regulatory and TSX Venture Exchange approvals. The securities issued at closing of the Offering will be subject to a four month plus one day hold period from the date of issue, as well as to any other re-sale restrictions imposed by applicable securities regulatory authorities. Subject to approval by the TSX Venture Exchange and applicable securities legislation, NGE may pay finder's fees with respect to certain subscriptions from arm's length subscribers in accordance with the TSX Venture Exchange Policies.

NGE's President, James Buskard: "Based on the exciting results we've shared from our ongoing program at South Grass Valley, we are keen to continue drilling. Hole SGVC006 made it to a depth of 490 metres before the holiday break. Drilling has recommenced, and the hole is now at approximately 540 metres. As with all of the drilling, detailed logging and interpretation will begin once we receive assays, though as with SGVC005, early logging shows the continued presence of thick intervals of characteristic Carlin-style structural features and alteration textures, similar to those seen in the previous holes, which we feel is very encouraging, especially given the area and thicknesses over which we're seeing these features. This is certainly a large system."

Upcoming Events

NGE is pleased to welcome its stakeholders to visit with its team at the following upcoming events:

VANCOUVER RESOURCES INVESTMENT CONFERENCE (Vancouver)
Sunday and Monday, January 20th and 21st, 2019
<https://cambridgehouse.com/e/vancouver-resource-investment-conference-2019-76>
NGE Kickoff Breakfast Event: <https://investor.nevadaexploration.com/vric/>
Corporate Presentation: Monday, January 21st (Workshop 6) 2:10 - 2:20 pm
BOOTH: 719

PDAC (Toronto)
Sunday to Wednesday, March 3rd to 6th, 2019

About Nevada Exploration Inc.

NGE is an exploration company advancing a portfolio of new district-scale gold exploration projects along

Nevada's Battle Mountain-Eureka (Cortez) Trend. NGE is led by an experienced management team that has been involved in several significant discoveries in Nevada, including the discovery of Lone Tree and Rabbit Creek (part of the Twin Creeks Mine). NGE's team has spent the last decade integrating the use of hydrogeochemistry with conventional exploration tools to develop a Nevada-specific regional-scale geochemistry exploration program.

With new proprietary technology, NGE has completed the world's largest groundwater sampling program for gold exploration, collecting approximately 6,000 samples to evaluate Nevada's covered basins for new gold exploration targets. To advance follow-up targets, NGE has overcome the high drilling costs that have previously prohibited the wide-spread use of drilling as a prospecting tool by developing its Scorpion drill rig, a small-footprint, truck-mounted, small-diameter RC drill rig specifically tailored to the drilling conditions in Nevada's basins (analogous to RAB drilling in other parts of the world).

By integrating hydrogeochemistry and early-stage low-cost drilling with conventional exploration methods, NGE is overcoming the challenges and radically reducing the costs of exploring in Nevada's covered basins, and is taking significant steps to open this important new search space up for district-scale exploration.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

Wade A. Hodges, CEO & Director, [Nevada Exploration Inc.](#), is the Qualified Person, as defined in National Instrument 43-101, and has prepared the technical and scientific information contained in this News Release.

Cautionary Statement on Forward-Looking Information:

This news release contains "forward-looking information" and "forward-looking statements" (collectively, "forward-looking information") within the meaning of applicable securities laws, including, without limitation, expectations, beliefs, plans, and objectives regarding projects, potential transactions, and ventures discussed in this release.

In connection with the forward-looking information contained in this news release, the Company has made numerous assumptions, regarding, among other things, the assumption the Company will continue as a going concern and will continue to be able to access the capital required to advance its projects and continue operations. While the Company considers these assumptions to be reasonable, these assumptions are inherently subject to significant uncertainties and contingencies.

In addition, there are known and unknown risk factors which could cause the Company's actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking information contained herein. Among the important factors that could cause actual results to differ materially from those indicated by such forward-looking statements are the risks inherent in mineral exploration, the need to obtain additional financing, environmental permits, the availability of needed personnel and equipment for exploration and development, fluctuations in the price of minerals, and general economic conditions.

A more complete discussion of the risks and uncertainties facing the Company is disclosed in the Company's continuous disclosure filings with Canadian securities regulatory authorities at www.sedar.com. All forward-looking information herein is qualified in its entirety by this cautionary statement, and the Company disclaims any obligation to revise or update any such forward-looking information or to publicly announce the result of any revisions to any of the forward-looking information contained herein to

reflect future results, events or developments, except as required by law.

United States Advisory:

The securities referred to herein have not been and will not be registered under the United States Securities Act of 1933, as amended (the "U.S. Securities Act"), have been offered and sold outside the United States to eligible investors pursuant to Regulation S promulgated under the U.S. Securities Act, and may not be offered, sold, or resold in the United States or to, or for the account of or benefit of, a U.S. Person (as such term is defined in Regulation S under the United States Securities Act) unless the securities are registered under the U.S. Securities Act, or an exemption from the registration requirements of the U.S. Securities Act is available. Hedging transactions involving the securities must not be conducted unless in accordance with the U.S. Securities Act. This press release shall not constitute an offer to sell or the solicitation of an offer to buy any securities, nor shall there be any sale of securities in the state in the United States in which such offer, solicitation or sale would be unlawful.
