Sundance Energy Australia Ltd. Reports Fourth Quarter and Full Year 2018 Financial and Operational Results

27.03.2019 | GlobeNewswire

DENVER, March 27, 2019 - <u>Sundance Energy Australia Ltd.</u> (ASX: SEA) (NASDAQ: SNDE) (“Sundance” or the “Company”), a U.S. onshore oil and gas exploration and production company focused in the Eagle Ford in South Texas reported its fourth quarter and full year 2018 financial and operations results today.

Fourth Quarter and Full Year 2018 Financial Results Highlights

- Net Income attributable to owners of the Company was US \$64.7 million for the fourth quarter of 2018 and a loss of US \$28.1 million for full year 2018. Adjusted EBITDAX¹ for the fourth quarter of 2018 was US \$48.2 million, representing. In line with full year guidance, Sundance's full year 2018 Adjusted EBITDAX was US \$100.1 million.
- Sundance's year end 2018 net debt of US \$313.4 million represents a 1.6x Debt-To-EBITDAX leverage multiple on a last quarter annualized basis.
- Total revenue for the quarter increased ~105.7% to US \$58.3 million as compared to the same prior year period.
- Average fourth quarter realized prices excluding the impact of hedging were US \$60.30 per barrel of oil, US \$3.03 per mmbtu of gas, and US \$26.20 per barrel of NGL. This compares to an average WTI price of \$59.97 for the quarter. On a blended basis the average estimated fourth quarter price realized per boe for all products excluding the impact of hedging was US \$49.23. Average fourth quarter price including the impact of realized hedges was US \$56.04 per boe and US \$70.38 per barrel of oil.
- Cash operating costs for the quarter of US \$15.36 per boe improved 7.2% as compared to US \$16.56 per boe for the same prior year period and improved 15.7% as compared the third quarter 2018 due to lower cash General and Administrative ("G&A"), Gathering, Processing and Transportation ("GP&T"), and Workover expenses per boe. The Company successfully lowered its cash operating costs over the course of 2018 as it worked to integrate the new assets from the Pioneer acquisition, including a significant workover program to improve the performance or bring back online acquired wells. Lease Operating Expense ("LOE") was US \$6.75 per boe and GP&T was \$2.57 per boe. GP&T includes higher midstream tariffs which solely and specifically apply to production from wells put on production by Pioneer prior to closing of the acquisition. All incremental production from new wells on the acquired assets will be charged at new, lower market rates and result in decreased GP&T per boe over time. Full year LOE plus GP&T was \$9.71per boe, towards the lower end of the Company's LOE guidance.
- As of 22nd March 2019, the Company’s oil hedges covered a total of 5,018,000 barrels through 2023 with a weighted average floor of US \$54.91 and ceiling of US \$62.88. Hedging covered approximately ~6,600 barrels of oil per day for the remainder of 2019 with a weighted average floor of US \$60.33.
- Fourth quarter development and production related expenditures totaled US \$73.4 million and for the full year were US \$176.1 million, at the low end of the Company's previously released full year capital guidance.
- During the fourth quarter, on 14th November 2018 the Company announced a 40% increase in its Senior Secured Borrowing Base Facility from US \$87.5mm to US \$122.5mm. This US \$35.0mm increase provides the Company with substantial additional liquidity.
- The Company's year-end 2018 proved reserves as estimated by Ryder Scott Company, L.P. were 93.2 MMboe representing a PV-10 of \$1,110mm as calculated under SEC guidelines.²

Operational Highlights

10.11.2025 Seite 1/9

- Fourth quarter net production volumes were 1,303,684 boe or 14,170 boe per day, and full year net production volumes were 3,771,610 boe or 10,333 boe per day. This exceeded the top end of Sundance's full year guidance of 9,000 to 10,000 Boe/day and meets the Company's fourth quarter guidance. Net production for the quarter represents an increase of ~66% as compared to the same period for the prior year and a ~18% increase as compared to the third quarter of 2018. Full year net production represents an increase of ~31% as compared to 2017.
- Sundance is transitioning to guiding based on average daily sales volumes, in line with its US-listed peers. On this basis, Sundance had 12,880 boe per day and 9,611 boe per day for the fourth quarter and full year 2018 respectively.
- Fourth quarter net production was ~67% oil, ~21% gas and ~12% NGLs by volume.
- Sundance brought 11.0 gross (11.0 net) wells onto production during the fourth quarter, bringing the total number of gross wells brought online in 2018 to 23.0 (23.0 net). These fourth quarter wells included 9.0 gross (9.0 net) wells on the acreage acquired from Pioneer in Live Oak County. Sundance additionally brought online 2.0 gross (2.0 net) wells on its legacy acreage in McMullen County.
- Sundance additionally completed drilling ("SPUD to TD") 2.0 additional gross (2.0 net) wells during the fourth quarter. These comprised the Red Ranch EFS 18H and 19H two well pad in Dimmit County. At year end the Company was in the process of drilling the Roy Esse 15H, 16H, 17H and 18H four well pad in Live Oak County.
- Sundance has entered into a letter agreement with its midstream partner to upgrade capacity at one of its gas processing plants. The expansion project is currently underway and is expected to be completed in April 2019.

2019 Guidance Highlights

- Sundance's 2019 plan is to operate within cash flow while still providing attractive production and Adjusted EBITDAX growth. The Company's 2019 plan was formulated assuming a conservative \$50 oil price environment. Should prices improve, incremental cash flow will be utilized to pay down debt, return of capital or for additional investment activities as appropriate.
- Average sales volumes are targeted at 14,000 to 15,000 boe per day for 2019 and 11,500 to 12,500 boe per day for the first quarter.
- The Company intends to bring 25 wells online during full year 2019, at a capital cost of US \$135 to 155 million.
- At an assumed \$55 WTI oil price and \$2.75 Henry Hub gas, Sundance expects to generate US \$165 to 180 million in Adjusted EBITDAX³ for 2019.

Conference Call

The Company will host a conference call for investors on Wednesday, March 27, 2019 at 3 p.m. MDT (Thursday, 28 March, 2019 at 8 a.m. AEDT).

Interested investors can listen to the call via webcast at http://www.sundanceenergy.net/events.cfm. The webcast will also be available for replay on the Company's website.

Additional Information

We define &Idquo;Adjusted EBITDAX", a non-IFRS measure, as earnings before interest expense, income taxes, depreciation, depletion and amortization, property impairments, gain/(loss) on sale of non-current assets, exploration expense, share based compensation and income, gains and losses on commodity hedging, net of settlements of commodity hedging and items that the Company believes affect the comparability of operating results such as items whose timing and/or amount cannot be reasonably estimated or items that are non-recurring. Management uses Adjusted EBITDAX to facilitate comparisons of its performance between periods and to the performance of its peers. This non-IFRS financial measure should not be considered as a substitute for, nor superior to, measures of financial performance prepared in accordance with IFRS.

Below is a reconciliation from the net income (loss) attributable to owners of the Company to Adjusted

About Sundance Energy Australia Limited

<u>Sundance Energy Australia Ltd.</u> (“Sundance” or the “Company”) is an Australian-based, independent energy exploration company, with a wholly owned US subsidiary, Sundance Energy Inc., located in Denver, Colorado, USA. The Company is focused on the acquisition and development of large, repeatable oil and natural gas resource plays in North America. Current activities are focused in the Eagle Ford. A comprehensive overview of the Company can be found on Sundance’s website at www.sundanceenergy.net.

Summary Information

The following disclaimer applies to this document and any information contained in it. The information in this release is of general background and does not purport to be complete. It should be read in conjunction with Sundance's periodic and continuous disclosure announcements lodged with ASX Limited that are available at www.asx.com.au and Sundance's filings with the Securities and Exchange Commission available at www.sec.gov.

Forward Looking Statements

10.11.2025 Seite 7/9

This release may contain forward-looking statements. These statements relate to the Company's expectations, beliefs, intentions or strategies regarding the future. These statements can be identified by the use of words like "anticipate", "believe", "intend", "estimate", "expect", "may", "plan", "should", "seek" and similar words or expressions containing same.

These forward-looking statements reflect the Company's views and assumptions with respect to future events as of the date of this release and are subject to a variety of unpredictable risks, uncertainties, and other unknowns. Actual and future results and trends could differ materially from those set forth in such statements due to various factors, many of which are beyond our ability to control or predict. These include, but are not limited to, risks or uncertainties associated with the discovery and development of oil and natural gas reserves, cash flows and liquidity, business and financial strategy, budget, projections and operating results, oil and natural gas prices, amount, nature and timing of capital expenditures, including future development costs, availability and terms of capital and general economic and business conditions. Given these uncertainties, no one should place undue reliance on any forward looking statements attributable to Sundance, or any of its affiliates or persons acting on its behalf. Although every effort has been made to ensure this release sets forth a fair and accurate view, we do not undertake any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
