

First Majestic Updates 2018 Mineral Reserve and Resource Estimates

29.03.2019 | [GlobeNewswire](https://www.globenewswire.com)

VANCOUVER, March 29, 2019 - FIRST MAJESTIC SILVER CORP. (the "Company" or "First Majestic") is pleased to announce its 2018 Mineral Reserve and Resource estimates for its existing mineral property assets in Mexico with an effective date of December 31, 2018. The Company completed a total of 211,695 metres of diamond drilling at its operating mines in 2018, representing a 35% increase in metres drilled compared to the prior year.

2018 HIGHLIGHTS (compared to the prior estimate of December 31, 2017)

- Proven and Probable Reserves increased 46% to 170.9 million silver equivalent ounces
 - Added San Dimas Reserves consisting of 100.4 million silver equivalent ounces; or up 32% compared to post acquisition estimates due to higher conversion of Resources to Reserves resulting from successful infill drilling in the Jessica, Roberta and Regina mining areas
 - San Martin Reserves declined 71% to 6.1 million silver equivalent ounces resulting from an increase in cut-off grades due to lower metal price assumptions and an increase in operating costs, as well as re-assessing the dilution and mining recovery factors to reflect current mining conditions
 - La Parrilla Reserves declined 75% to 3.6 million silver equivalent ounces resulting from mine depletion and an increase in cut-off grades due to lower metal price assumptions and an increase in operating costs
 - Excluded La Guitarra Reserves after placing the operation in care and maintenance
- Measured and Indicated Resources increased 82% to 259.8 million silver equivalent ounces
 - Added San Dimas M&I Resources of 130.2 million silver equivalent ounces; up 8% compared to previous estimates
 - Upgraded 8.8 million silver equivalent ounces at the Ermitaño Silver/Gold Project from Inferred to Indicated Resources
- Inferred Resources increased 3% to 212.7 million silver equivalent ounces
 - Added San Dimas Inferred Resources of 112.6 million silver equivalent ounces
 - Increased Ermitaño's Inferred Resource by 20% to 49.0 million silver equivalent ounces
 - Reclassified 92.9 million silver equivalent ounces at La Joya to historical estimates

The following table shows the total tonnage mined from each of the Company's producing properties during 2018, including total ounces of silver and silver equivalent ounces produced from each property and the tonnage mined from delineated Reserves and Resources at each property. A portion of the production from each mine came from material other than Reserves or Resources, as set out below under the heading "Material Mined from Areas Not in Reserves or Resources".

2018 PRODUCTION TABLE

	Units	SAN DIMAS	SANTA ELENA	LA ENCANTADA	SAN MARTIN
Ore Processed	Tonnes	435,289	899,370	916,894	284,000
Material Mined from Reserves	Tonnes	434,838	876,070	205,931	235,000
Material Mined from Areas Not In Reserves or Resources	Tonnes	451	23,300	710,963	49,500
Silver Produced	Ounces	3,621,868	2,223,246	1,603,740	1,740,000
Silver-Equivalent Produced from Other Metals ⁽¹⁾	Ounces	4,429,737	3,791,441	7,155	423,000
Silver-Equivalent Produced	Ounces	8,051,605	6,014,687	1,610,895	2,163,000

- Silver-equivalent ounces are estimated considering: metal price assumptions, metallurgical recovery for the corresponding mineral type/mineral process and the metal payable of the corresponding contract of each mine. Details as to the method of calculation can be found in the applicable tables in each mine section of the 2018 Annual Information Form.
- (2) Totals may not add up due to rounding.

Metal price assumptions used to estimate the 2018 Reserves were reduced to reflect a conservative view and relatively inline with the three-year rolling price averages. Price assumptions for Mineral Reserves estimation decreased to \$17.00/oz for silver (-\$1.00/oz), \$1,250/oz for gold (-\$50/oz), \$1.10/lb for lead (-\$0.10/lb) and \$1.20/lb for zinc (-\$0.20/lb) when compared to the previous estimates.

RESERVES AND RESOURCES UPDATE

As of December 31, 2018, Proven and Probable Reserves totaled 170.9 million silver equivalent ounces, representing a 46% increase in metal content compared to the prior estimate of December 31, 2017. This increase reflects the incorporation of the high grade reserves of the San Dimas mine after its acquisition on May 10, 2018 and the results of the infill exploration and development programs, offset by the effect of mining depletion, the reduction of reserves primarily at San Martin and La Parrilla, the elimination of reserves from La Guitarra which was put in care and maintenance in August 2018, as well as the impact of lower metal price assumptions.

The Company's consolidated Measured and Indicated Mineral Resources have increased 17% in terms of tonnage and 82% in terms of silver equivalent metal content as the result of incorporating the high grade resources of San Dimas as well as conversion of Inferred Resources at Ermitaño following its successful 2018 exploration program. These increases were partially offset by production depletion and reductions in metal price used for Mineral Resources estimation.

Consolidated Inferred Mineral Resources increased by 3% in terms of silver equivalent metal content after the incorporation of resources from San Dimas which was offset by the subtraction of resources from La Joya which is now considered a historical estimate.

The complete 2018 Mineral Reserve and Resource estimates for all metals, tonnage and grades are shown below in the following tables:

Proven and Probable Mineral Reserves with an effective date of December 31, 2018

Mine	Category	Mineral Type	Tonnage Grades				
			kt	Ag (g/t)	Au (g/t)	Pb (%)	Zn (%)
SAN DIMAS	Proven (UG)	Sulphides	1,629	323	4.09	-	-
	Probable (UG)	Sulphides	3,794	303	3.34	-	-
	Total Proven and Probable (UG)	Sulphides	5,423	309	3.56	-	-
SANTA ELENA	Proven (UG)	Sulphides	2,028	113	1.58	-	-
	Probable (UG)	Sulphides	576	102	1.28	-	-
	Probable (Pad)	Oxides	1,349	36	0.94	-	-
	Total Proven and Probable (UG+Pad)	Oxides + Sulphides	3,953	85	1.32	-	-
LA ENCANTADA	Probable (UG)	Oxides	1,311	189	-	-	-
	Probable (UG)	Oxides - Flotation	809	147	-	2.35	-
	Probable (Tailings)	Oxides	4,138	110	-	-	-
	Total Probable (UG)	Oxides + Tailings	6,257	131	-	0.30	-
LA PARRILLA	Probable (UG)	Oxides	70	233	0.17	-	-
	Probable (UG)	Sulphides	308	166	0.05	2.00	2.10
	Total Probable (UG)	Oxides	378	179	0.08	1.63	1.71
SAN MARTÍN	Proven (UG)	Oxides	79	175	0.27	-	-
	Probable (UG)	Oxides	615	245	0.50	-	-
	Total Proven and Probable (UG)	Oxides	694	237	0.47	-	-

DEL TORO	Proven (UG)	Transition + Sulphides	42	205	0.29	2.44	0.65
	Probable (UG)	Transition + Sulphides	639	200	0.28	4.41	4.08
	Total Proven and Probable (UG)	Transition + Sulphides	681	200	0.28	4.29	3.87
	Total Proven and Probable	All mineral types	17,387	184	1.44	0.31	0.19

Mineral Reserves have been classified in accordance with the Canadian Institute of Mining, Metallurgy and (1) Petroleum ("CIM") Definition Standards on Mineral Resources and Mineral Reserves, whose definitions are incorporated by reference into National Instrument 43-101 (NI43-101).

The Mineral Reserves statement provided in the table above is based on internal estimates prepared as of (2) December 31, 2018. The information provided was reviewed and prepared under the supervision of Ramon Mendoza Reyes, PEng, and a Qualified Person ("QP") for the purposes of NI43-101.

Silver-equivalent grade is estimated considering metal price assumptions, metallurgical recovery for the (3) corresponding mineral type/mineral process and the metal payable of the corresponding contract of each mine. Estimation details are listed in each mine section of the 2018 Annual Information Form ("AIF").

(4) Metal prices considered for Mineral Reserves estimates were \$17.00/oz Ag and \$1,250/oz Au, \$1.00/lb Pb, and \$1.20/lb Zn.

A two-step constraining approach has been implemented to estimate reserves for each mining method in use: A General Cut-Off Grade (GC) was used to delimit new mining areas that will require development of access and infrastructure and all sustaining costs. A second Incremental Cut-Off Grade (IC) was considered to include adjacent mineralized material which recoverable value pays for all associated costs, including but (5) not limited to the variable cost of mining and processing, indirect costs, treatment, administration costs and plant sustaining costs.

The cut-off grades, metallurgical recoveries, payable terms and modifying factors used to convert Mineral Reserves from Mineral Resources are different for all mines. These cut-off grades and economic parameters are listed in the applicable section describing each mine below in the AIF.

Dilution for underground mining includes consideration for planned dilution due to geometric aspects of the (6) designed stopes and economic zones, and additional dilution consideration due to material handling and other operating aspects. Dilution and mining recovery factors are listed in the applicable section describing each mine below in the AIF.

(7) Tonnage is expressed in thousands of tonnes, metal content is expressed in thousands of ounces.

(8) Totals may not add up due to rounding.

Measured and Indicated Mineral Resources with an effective date of December 31, 2018

Mine / Project	Category	Mineral Type	Tonnage kt	Grades			
				Ag (g/t)	Au (g/t)	Pb (%)	Zn (%)

2019 EXPLORATION PROGRAM

For 2019, First Majestic is planning to invest a total of \$26.2 million towards exploration to drill approximately 188,000 metres across its core Mexican assets. The 2019 drilling program will consist of approximately 11,600 metres of sustaining diamond drilling to support mining activities at the six operating mines; approximately 152,000 metres of expansionary diamond drilling intended to improve confidence and increase Mineral Resources with a focus on the Santa Elena Main Vein and the Central Block at San Dimas; and drill approximately 8,400 metres intended to test greenfield targets at Santa Elena and Del Toro. Furthermore, due to the exploration success in 2018 at Ermitaño, the Company is planning to complete a 16,000 metre drill program in 2019 to investigate the continuity of mineralization at shallow depths that may be amenable to open pit extraction.

The Company also announces that its 2018 Annual Information Form has been filed on SEDAR. In addition, a Form 40-F report has been filed with the United States Securities and Exchange Commission and is available on EDGAR. Both documents are also available on the Company's website at www.firstmajestic.com.

Shareholders may also receive a copy of First Majestic's Annual Report which includes the audited financial statements, without charge, upon request to First Majestic, Suite 1800 - 925 West Georgia Street Vancouver, B.C., Canada, V6C 3L2 or to info@firstmajestic.com.

Mr. Ramon Mendoza Reyes, Vice President Technical Services for First Majestic, is a "Qualified Person" as such term is defined under National Instrument 43-101, and has reviewed and approved the technical information disclosed in this news release.

ABOUT THE COMPANY

First Majestic is a mining company focused on silver production in Mexico and is aggressively pursuing the development of its existing mineral property assets. The Company presently owns and operates the San Dimas Silver/Gold Mine, the Santa Elena Silver/Gold Mine, the La Encantada Silver Mine, the San Martin Silver Mine, the La Parrilla Silver Mine and the Del Toro Silver Mine. Production from these mines are projected to be between 14.2 to 15.8 million silver ounces or 24.7 to 27.5 million silver equivalent ounces in 2019.

SPECIAL NOTE REGARDING FORWARD-LOOKING INFORMATION

This press release contains "forward-looking information" and "forward-looking statements" under applicable Canadian and U.S. securities laws (collectively, "forward-looking statements"). These statements relate to future events or the Company's future performance, business prospects or opportunities that are based on forecasts of future results, estimates of amounts not yet determinable and assumptions of management made in light of management's experience and perception of historical trends, current conditions and expected future developments. Forward-looking statements include, but are not limited to, statements with respect to: the Company's business strategy; future planning processes; commercial mining operations; cash flow; budgets; the timing and amount of estimated future production; recovery rates; mine plans and mine life; the future price of silver and other metals; costs of production; costs and timing of the development of new deposits; capital projects and exploration activities and the possible results thereof. Assumptions may prove to be incorrect and actual results may differ materially from those anticipated. Consequently, guidance cannot be guaranteed. As such, investors are cautioned not to place undue reliance upon guidance and forward-looking statements as there can be no assurance that the plans, assumptions or expectations upon which they are placed will occur. All statements other than statements of historical fact may be forward-looking statements. Statements concerning proven and probable mineral reserves and mineral resource estimates may also be deemed to constitute forward-looking statements to the extent that they involve estimates of the mineralization that will be encountered as and if the property is developed, and in the case of measured and indicated mineral resources or proven and probable mineral reserves, such statements reflect the conclusion based on certain assumptions that the mineral deposit can be economically exploited. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives or future events or performance (often, but not always, using words or phrases such as "seek", "anticipate", "plan", "continue", "estimate", "expect", "may", "will", "project", "predict", "forecast", "potential", "target", "intend", "could", "might", "should", "believe" and similar expressions) are not statements of historical fact and may be "forward-looking statements".

Actual results may vary from forward-looking statements. Forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause actual results to materially differ from those expressed or implied by such forward-looking statements, including but not limited to: risks related to the integration of acquisitions; actual results of exploration activities; conclusions of economic evaluations; changes in project parameters as plans continue to be refined; commodity prices; variations in ore reserves, grade or recovery rates; actual performance of plant, equipment or processes relative to specifications and expectations; accidents; labour relations; relations with local communities; changes in national or local governments; changes in applicable legislation or application thereof; delays in obtaining approvals or financing or in the completion of development or construction activities; exchange rate fluctuations; requirements for additional capital; government regulation; environmental risks; reclamation expenses; outcomes of pending litigation; limitations on insurance coverage as well as those factors discussed in the section entitled "Description of the Business - Risk Factors" in the Company's most recent Annual Information Form, available on www.sedar.com, and Form 40-F on file with the United States Securities and Exchange Commission in Washington, D.C. Although First Majestic has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended.

The Company believes that the expectations reflected in these forward-looking statements are reasonable, but no assurance can be given that these expectations will prove to be correct and such forward-looking statements included herein should not be unduly relied upon. These statements speak only as of the date hereof. The Company does not intend, and does not assume any obligation, to update these forward-looking statements, except as required by applicable laws.
