## About Wealth Minerals Ltd.

Wealth is a mineral resource company with interests in Canada, Mexico, Peru and Chile. The Company's main focus is the acquisition and development of lithium projects in South America. To date, the Company has positioned itself to develop the Quisquiro salar in Chile (the Trinity project), as well as to work alongside existing producers in the prolific Atacama salar, where the Company has a substantial licenses package. The Company has also positioned itself to play a role in asset consolidation in Chile with various lithium properties throughout the country.

Lithium market dynamics and a rapidly increasing metal price are the result of profound structural issues with the industry meeting anticipated future demand. Wealth is positioning itself to be a major beneficiary of this future mismatch of supply and demand. The Company also maintains and continues to evaluate a portfolio of precious and base metal exploration-stage projects.
