VANCOUVER, April 15, 2019 - [Mineral Mountain Resources Ltd.](#) ("Mineral Mountain" or the "Company") (TSXV: "MMV") is pleased to announce that it is arranging a non-brokered private placement (the "Private Placement") of up to 13,300,000 units of the Company ("Units") to be sold at a price of C\$0.15 per Unit to raise gross proceeds of up to C\$2,000,000. Each Unit consists of one common share of the Company and one common share purchase warrant (a "Warrant"), with each Warrant entitling the holder to purchase one common share of the Company (a "Warrant Share") for a period of one (1) year from closing at an exercise price of C\$0.25 per Warrant Share.

The net proceeds raised from the Private Placement are intended to be used primarily to fund a 4,000 m Phase 2 directional drilling program designed to test high grade gold values recorded historically down plunge along the East Limb Structure. The first drill hole will be a 1600m Mother pilot hole to a vertical depth below the 1,000m level which will including down hole geophysics DHEM. This Mother pilot hole will cross cut the main sheer zone at the bottom of the hole up to 200m away to intercept the high grade zones Homestake drilled in the 80's below the main Standby Mine, a "turn of the century gold producer".

"Our Phase 1 drill program results completed last season and the Company's comprehensive database provide strong support that the 30m wide East Limb Structure, which hosts the Standby Mine deposit, is believed to be part of a large, deep thickened body of gold hosted iron formation, similar to the host rocks of the Homestake Mine, that plunge to the south-southeast", stated Nelson Baker, President and CEO of [Mineral Mountain Resources Ltd.](#)

The securities issued pursuant to the Private Placement will be subject to a four month plus one day hold period in accordance with applicable Canadian securities laws. The Company may pay a finders' fee on a portion of the financing in accordance with TSX Venture Exchange policy.

About Mineral Mountain Resources and the Rochford Gold Project

[Mineral Mountain Resources Ltd.](#), through its wholly owned subsidiary Mineral Mountain Resources (SD) Inc., is focused on the exploration and, if warranted, development of its 100%-owned Rochford Gold Project situated along the highly prospective Homestake Gold Belt in the Black Hills of South Dakota, U.S.A. The Rochford Project covers approximately 7,500 acres and straddles three major trends of structurally thickened auriferous iron formation that host ledge-type gold mineralization.

Since 2013, the Company has continued to expand its land position in the Rochford Gold District by professional claim staking and also by purchasing strategically located private properties that fall along two of the major sub-parallel structural trends that host Ledge-type gold mineralization. The Company now owns the largest land position in the Rochford greenstone belt and now possesses a large and comprehensive database for the district. The Company believes that the Rochford Project is under-explored and constitutes one of the most prospective gold districts in North America.
