

Wealth Minerals Ltd. Closes \$1.58 million Initial Tranche of Non-Brokered Private Placement

18.04.2019 | [GlobeNewswire](#)

VANCOUVER, April 18, 2019 - [Wealth Minerals Ltd.](#) (the "Company" or "Wealth") - (TSXV: WML; OTCQX: WMLLF; SSE: WMLCL; Frankfurt: EJZ), announces it has closed an initial tranche of their non-brokered private placement previously announced on March 22, 2019 (the "Placement"). On April 11, 2019, a total of 3,960,911 units (each, a "Unit") were issued under the Placement at a price of \$0.40 per Unit for gross proceeds of \$1,584,364.40. Each Unit consists of one common share in the capital of the Company (each, a "Share") and one-half of one common share purchase warrant, with each whole warrant (each, a "Warrant") entitling the holder to acquire one additional Share at a price of \$0.75 per Share for a period of up to two years, expiring on April 11, 2021. In the event that the closing price of the Shares on the TSX Venture Exchange is at least \$1.50 per Share for a period of 10 consecutive trading days commencing four months and one day after the closing of the Placement, the Company may accelerate the expiry date of the Warrants by providing notice to the shareholders thereof and, in such case, the Warrants will expire on the 30th day after the date on which such notice is given by the Company.

All securities issued by the Company pursuant to the Placement will have a four month and one day hold period in Canada ending on August 12, 2019. In connection with the Placement, the Company paid aggregate finder's fees of 24,710 Units, which Units were issued to Canaccord Genuity Corp. and 53,865 Broker Warrants, which Broker Warrants issued to Canaccord Genuity Corp., Haywood Securities Inc. and BMO Nesbitt Burns, each Broker Warrant entitles the holder to purchase one common share at a price of \$0.40 for one year. The Units issued as finder's fees have the same terms and conditions as the Units issued under the Placement, provided that the Warrants forming part of the Units issued as finder's fees are non-transferable. The Company also paid an aggregate \$11,620.00 in cash finder's fees to Haywood Securities Inc. and BMO Nesbitt Burns.

The Company also reports that it is extending the final closing of the Placement to May 3, 2019.

The net proceeds from the Placement are intended to fund option payments on the Company's mineral property options, costs for the review and assessment of potential lithium mineral property acquisitions in South America, exploration work on the Company's existing mineral projects and for general and administrative expenses and working capital purposes.

About Wealth Minerals Ltd.

Wealth is a mineral resource company with interests in Canada, Mexico, Peru and Chile. The Company's main focus is the acquisition and development of lithium projects in South America. To date, the Company has positioned itself to develop the Quisquiro Salar in Chile (the Trinity Project), as well as to work alongside existing producers in the prolific Atacama Salar, where the Company has a substantial licenses package. The Company has also positioned itself to play a role in asset consolidation in Chile with various lithium properties throughout the country.

Lithium market dynamics and a rapidly increasing metal price are the result of profound structural issues with the industry meeting anticipated future demand. Wealth is positioning itself to be a major beneficiary of this

future mismatch of supply and demand. The Company also maintains and continues to evaluate a portfolio of precious and base metal exploration-stage projects.

Cautionary Note Regarding Forward-Looking Statements

This news release contains forward-looking statements and forward-looking information (collectively, "forward-looking statements") within the meaning of applicable Canadian and U.S. securities legislation, including the United States Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical fact, included herein including, without limitation, anticipated exploration program results from exploration activities, the Company's expectation that it will be able to enter into agreements to acquire interests in additional mineral properties, the discovery and delineation of mineral deposits/resources/reserves, the intended use of the proceeds received from the Placement, and the anticipated business plans and timing of future activities of the Company, are forward-looking statements. Although the Company believes that such statements are reasonable, it can give no assurance that such expectations will prove to be correct. Forward-looking statements are typically identified by words such as: "believe", "expect", "anticipate", "intend", "estimate", "postulate" and similar expressions, or are those, which, by their nature, refer to future events. In making the forward-looking statements in this news release, the Company has applied several material assumptions, including without limitation, that market fundamentals will result in sustained lithium demand and prices, the receipt of any necessary permits, licenses and regulatory approvals in connection with the future development of the Company's Chilean lithium projects in a timely manner, the availability of financing on suitable terms for the development, construction and continued operation of the Company projects, and the Company's ability to comply with environmental, health and safety laws.

The Company cautions investors that any forward-looking statements by the Company are not guarantees of future results or performance, and that actual results may differ materially from those in forward-looking statements as a result of various factors, including, operating and technical difficulties in connection with mineral exploration and development activities, actual results of exploration activities, the estimation or realization of mineral reserves and mineral resources, the timing and amount of estimated future production, the costs of production, capital expenditures, the costs and timing of the development of new deposits, requirements for additional capital, future prices of lithium, changes in general economic conditions, changes in the financial markets and in the demand and market price for commodities, lack of investor interest in the Placement, accidents, labour disputes and other risks of the mining industry, delays in obtaining governmental approvals, permits or financing or in the completion of development or construction activities, changes in laws, regulations and policies affecting mining operations, title disputes, the inability of the Company to obtain any necessary permits, consents, approvals or authorizations, including acceptance by the TSX Venture Exchange of the Placement, required for future exploration activities or the acquisition of additional mineral properties, the timing and possible outcome of any pending litigation, environmental issues and liabilities, and risks related to joint venture operations, and other risks and uncertainties disclosed in the Company's latest interim Management Discussion and Analysis and filed with certain securities commissions in Canada. All of the Company's Canadian public disclosure filings may be accessed

via www.sedar.com and readers are urged to review these materials, including the technical reports filed with respect to the Company's mineral properties.

Readers are cautioned not to place undue reliance on forward-looking statements. The Company undertakes no obligation to update any of the forward-looking statements in this news release or incorporated by reference herein, except as otherwise required by law.
