Graphite Tampering on Miller Property

23.05.2019 | GlobeNewswire

VANCOUVER, May 23, 2019 - The following is a statement from Canada Carbon Inc. (the “Company”) (TSX-V:CCB), (FF:U7N1):

On Thursday May 16, 2019, Canada Carbon Inc. was notified that Ugo Lapointe of Mining Watch Canada, Jacqueline Richer, an organizer of protest group SOSGSLR and others entered onto the private property on which the Miller Project is located without getting consent of all the landowners. Furthermore, the Company is in possession of video evidence that appears to show these same parties tampering with Canada Carbon Inc.’s packaged graphite. Given the on-going legal proceedings involving Canada Carbon Inc. and GSLR, the presence of these individuals on the Miller property is highly inappropriate and suspect. A Company representative visited the site yesterday to do a preliminary assessment of whether any damage had been caused to the property, the drill cores and the packaged graphite. Some of the core boxes sustained damage. The Company will need to sample test the packaged graphite to ensure that it has not been contaminated. The Company will be filing a formal complaint with the appropriate authorities.

Executive Chairman and CEO R. Bruce Duncan stated, “This is yet another example of how these parties continue to act in bad faith and without regard to the rule of law.”
