

# RTG Mining Inc.: Feasibility Study for the Mabilo Project Approved by the Mines and Geosciences Bureau

17.07.2019 | [ACCESS Newswire](#)

SUBIACO, July 17, 2019 - The Board of [RTG Mining Inc.](#) (RTG; the Company) (TSX:RTG, ASX:RTG, OTCQB:RTGGF) is pleased to announce that the Mines and Geosciences Bureau (MGB) has formally approved the Feasibility Study for the Mabilo Project, held by Mt. Labo Exploration and Development Corporation (Mt. Labo). Following a review by the Technical Committee on Mining Project Feasibility Studies, the evaluation confirmed the project is technically and economically feasible after consideration of the environmental, social and fiscal costs prescribed under the Philippine Mining Act of 1995 and its Revised Implementing Rules and Regulations as amended. This is a critical step in the finalisation of permitting for the start up of the Mabilo Project by Mt. Labo and they have expressed their appreciation to the MGB for their support.

## ABOUT RTG MINING INC

[RTG Mining Inc.](#) is a mining and exploration company listed on the main board of the Toronto Stock Exchange, the Australian Securities Exchange and the OTCQB Venture Market. RTG is focused on a proposal with a landowner lead consortium to secure an exploration licence at the high tonnage copper-gold Panguna Project in Bougainville PNG and the high grade copper/gold/magnetite Mabilo Project in the Philippines, while also identifying major new projects which will allow the Company to move quickly and safely to production.

RTG has an experienced management team which has to date developed seven mines in five different countries, including being responsible for the development of the Masbate Gold Mine in the Philippines through CGA Mining Limited. RTG has some of the most respected and international institutional investors as shareholders including Franklin Templeton, Sun Valley, Sprott and Equinox.

## CAUTIONARY NOTE REGARDING FORWARD LOOKING STATEMENTS

This announcement includes certain forward-looking statements within the meaning of Canadian and applicable securities legislation. Statement regarding interpretation of exploration results, plans for further exploration and accuracy of mineral resource and mineral reserve estimates and related

assumptions and inherent operating risks, are forward-looking statements. Forward-looking statements involve various risks and uncertainties and are based on certain factors and assumptions. There can be no assurance that such statements will prove to be accurate, and actual results and future events could differ materially from those anticipated in such statements. Important factors that could cause actual results to differ materially from RTG's expectations include uncertainties related to fluctuations in gold and other commodity prices and currency exchange rates; uncertainties relating to interpretation of drill results and the geology, continuity and grade of mineral deposits; uncertainty of estimates of capital and operating costs, recovery rates, production estimates and estimated economic return; the need for cooperation of government agencies in the development of RTG's mineral projects; the need to obtain additional financing to develop RTG's mineral projects; the possibility of delay in development programs or in construction projects and uncertainty of meeting anticipated program milestones for RTG's mineral projects and other risks and uncertainties disclosed under the heading "Risk Factors" in RTG's Annual Information Form for the year ended 31 December 2017 filed with the Canadian securities regulatory authorities on the SEDAR website at [sedar.com](http://sedar.com). The forward-looking statements made in this announcement relate only to events as of the date on which the statements are made. RTG will not release publicly any revisions or updates to these forward-looking statements to reflect events, circumstances or unanticipated events occurring after the date of this announcement except as required by law or by any appropriate regulatory authority.
