Tamino Minerals Inc. Issues Shareholder Update

06.08.2019 | GlobeNewswire

MONTREAL, Aug. 06, 2019 - *Tamino Minerals Inc. ("Tamino" or the "Company") (OTC Markets: TINO)* August 5, 2019, Mr. Pedro Villagran-Garcia, President & CEO, announces that Tamino continues to be hard at work. We have had a fast start to 2019 with excellent results in the first, second and third quarters through the collective group initiatives of sourcing new acquisitions, and financing to become current on OTC Markets.

The company is not planning to complete a REVERSE SPLIT at this moment and is not in the company’s plans to do this. NO DILLUTION is guaranted as our latest DTCC Share Position Report shows that the company has 149,811,161 common shares in the float. We are also working on preparing Financial Statements in order to remove the Stop Sign.

Gold has always been a valuable investment and as the Fed continues its hike in interest rates, we foresee a significant opportunity in 2019 as prices are projected to surge past $1,550 an ounce over this year. As gold prices begin to trend upwards, investors will begin to flock to the haven of physical gold and mining companies producing the ever-sought-after mineral.

On behalf of the Board,

Tamino Minerals Inc.

Tamino Minerals Inc. is exploring for high-grade gold deposits within a prolific gold producing geologic state, Sonora.
