CAUTIONARY NOTE

Book value per share is a non-IFRS measure calculated as the total of shareholders' equity divided by the issued and outstanding shares of Itasca. The term "book value per share" does not have any standardized meaning according to IFRS and therefore may not be comparable to similar measures presented by other companies. There is no comparable IFRS measure presented in Itasca's audited consolidated financial statements and thus no applicable quantitative reconciliation for such non-IFRS financial measure. Itasca believes that book value per share can provide information useful to its shareholders.
