

# Itafos Announces Launch of New Premium Products at Itafos Arraias

24.09.2019 | [GlobeNewswire](#)

TORONTO, Sept. 24, 2019 - [Itafos](#) (TSX VENTURE: IFOS) (the "Company") announced today that it has launched its new line of premium products following the recent completion of initial production and sales of premium PK compound products as well as higher grade SSP.

The new premium products are in connection with the repurpose plan, which is aimed at optimizing [Itafos](#) Arraias' finished fertilizer production with a multi-product portfolio of higher grade SSP (21% phosphate), micronutrient enhanced SSP (19% and 21% phosphate) and premium PK compound products. The repurpose plan is expected to significantly enhance [Itafos](#) Arraias' competitive positioning and profitability while reducing its operational and environmental risk profile. To enable the repurpose plan, the Company has been procuring, and expects to continue to procure, higher grade phosphate rock from third parties.

"Producing premium PK compound products and higher grade SSP and micronutrient enhanced SSP demonstrates our ability to repurpose [Itafos](#) Arraias to focus on higher netback products and improve our margin profile," said Dr. Mhamed Ibnabdeljalil, interim CEO of [Itafos](#).

## About Itafos

The Company is a vertically integrated phosphate fertilizers and specialty products company with an attractive portfolio of long-term strategic businesses and projects located in key fertilizer markets worldwide.

The Company owns, operates and is developing the following businesses and projects:

- [Itafos](#) Conda – a vertically integrated phosphate mine and fertilizer business with production and sales capacity of approximately 550kt per year of monoammonium phosphate ("MAP"), MAP with micronutrients ("MAP+"), superphosphoric acid ("SPA"), merchant grade phosphoric acid ("MGA") and specialty products including ammonium polyphosphate ("APP") located in Idaho, US;
- [Itafos](#) Arraias – a phosphate fertilizer business with production and sales capacity of approximately 500kt per year of single superphosphate ("SSP"), SSP with micronutrients ("SSP+"), premium PK compounds and approximately 40kt per year of excess sulfuric acid located in Tocantins, Brazil;
- [Itafos](#) Paris Hills – a high-grade phosphate mine project located in Idaho, US;
- [Itafos](#) Farim – a high-grade phosphate mine project located in Farim, Guinea-Bissau;
- [Itafos](#) Santana – a vertically integrated high-grade phosphate mine and fertilizer plant project located in Pará, Brazil;
- [Itafos](#) Mantaro – a large phosphate mine project located in Junin, Peru; and
- [Itafos](#) Araxá – a vertically integrated rare earth elements and niobium mine and extraction plant project located in Minas Gerais, Brazil.
