

Medallion Resources Ltd. Closes Private Placement Total of \$794,874

11.10.2019 | [GlobeNewswire](#)

VANCOUVER, Oct. 11, 2019 - [Medallion Resources Ltd.](#) (TSX-V: MDL; OTC PK: MLLOF; Frankfurt: MRDN) – “Medallion” or the “Company”, pursuing smart production of NdPr magnet metals, today announced that it has closed the second and final tranche of its non-brokered private placement (the “Offering”), as announced in the Company’s news release dated August 2, 2019, for gross proceeds to the Company of \$230,754. In aggregate this Offering, including both tranches, was for total gross proceeds of \$794,874.

The Company recently achieved a major milestone in completing the development of its proprietary flow-sheet design to extract a rare-earth element (REE) concentrate from by-product monazite sand – with advantages in automation and cost-efficiency. Proceeds of the Offering will be used for process engineering and trade-off studies, business development and for general working capital.

Medallion has issued 2,197,657 units (each, a “Unit”) pursuant to the second tranche of the Offering at a price of \$0.105 per Unit. Each Unit consists of one common share of the Company (a “Common Share”) and one-half of a transferable Common Share purchase warrant (each whole warrant, a “Warrant”). Each Warrant is exercisable to acquire one additional Common Share at an exercise price of \$0.165 until February 10, 2022.

In connection with this tranche of the Offering, the Company paid aggregate finders’ fees to qualified finders of \$420 representing 8% of the gross proceeds in respect of certain subscriptions. The Company also issued 4,000 non-transferable finders’ warrants to qualified finders, with each finders’ warrant being exercisable to acquire one Common Share at an exercise price of \$0.165 until February 10, 2022.

All securities issued to purchasers in the Offering are subject to a hold period expiring four months and one day after issuance, pursuant to relevant securities legislation and the policies of the Exchange. The securities offered have not been nor will they be registered under the United States Securities Act of 1933, as amended, or state securities laws, and may not be offered or sold in the United States or to an account for the benefit of US persons, absent such registration or an exemption from registration. This press release shall not constitute an offer to sell or the solicitation of an offer to buy the securities in the United States or in any jurisdiction in which such offer, sale, or solicitation would be unlawful.

About Medallion Resources

Medallion Resources is developing an approach for low-cost, near-term, rare-earth element (REE) production by exploiting monazite. Monazite is a rare-earth phosphate mineral that is widely available as a by-product from mineral sand mining operations. REEs are critical inputs to electric and hybrid vehicles, electronics, imaging systems, wind turbines and strategic defense systems. Medallion is committed to following best practices and accepted international standards in all aspects of mineral transportation, processing and the safe management of waste materials.
