

Tri Origin Exploration Ltd. Announces up to \$650,000 Non-Brokered Private Placement

13.11.2019 | [The Newswire](#)

Aurora, Nov. 13, 2019 - [Tri Origin Exploration Ltd.](#) (TSXV:TOE) (the "Company") is pleased to announce that it intends to complete a non-brokered private placement financing of up to 15,000,000 units (the "Units") at a price of \$0.03 per Unit, for total gross proceeds to the Company of up to \$450,000 and up to 5,000,000 Flow Through units (the "FT Units") at a price of \$0.04 per FT Unit, for total gross proceeds to the Company of up to \$200,000 which together comprise the Offering (the "Offering"). Each Unit shall consist of one common share in the capital of the Company (a "Share") and one common share purchase warrant (a "Warrant"). Each Warrant shall entitle the holder to acquire one Share at a price of \$0.05 per Share for a period of 18 months from the closing date of the Offering. Each FT Unit shall consist of Share offered on a flow-through basis (a "FT Share") and one Warrant.

The FT Shares will qualify as a "flow-through share" as such term is defined in s. 66(15) of the Income Tax Act (Canada) and will entitle the holders to receive the tax benefits applicable to the flow-through shares, in accordance with the provisions of the Income Tax Act (Canada).

The gross proceeds raised from the sale of the Units will be used by the Company for mineral exploration and drilling on the Company's key gold projects in the Province of Ontario and for general working capital purposes. None of the proceeds of the financing shall be payable to non-arm's length parties except for general corporate purposes in the ordinary course of business.

The Offering is available to all shareholders of the Company as at November 12, 2019 (the "Record Date") (and still are shareholders) who are eligible to participate under the "Existing Shareholder Exemption". Any person who becomes a shareholder of the Company after the Record Date is not permitted to participate in the Offering using the Existing Shareholder Exemption, but other exemptions may still be available to them. Shareholders who became shareholders after the record date should consult their professional advisors when completing their subscription form to ensure that they use the correct exemption.

There are conditions and restrictions when relying upon the Existing Shareholder Exemption, namely, the subscriber must: a) be a shareholder of the Company on the Record Date (and still are a shareholder), b) be purchasing the Units as a principal, i.e. for their own account and not for any other party, and c) may not purchase more than \$15,000 value of securities from the Company in any twelve month period. There is one exception to the \$15,000 subscription limit. In the event that a subscriber wishes to purchase more than \$15,000 value of securities then it may do so provided it has first received 'suitability advice' from a registered investment dealer and, in this case, subscribers may be asked to confirm the registered investment dealer's identity and employer.

If the Offering is over-subscribed, it is possible that a shareholder's subscription may not be accepted by the Company even though it is received. Additionally, in the event of an imbalance of large subscriptions compared to smaller subscriptions management of the Company reserves the right in its discretion to reduce large subscriptions in favour of smaller shareholder subscriptions. There is no minimum amount that will be required to be raised pursuant to the Existing Shareholder Exemption portion of the Offering.

The Offering is being made pursuant to the grant of a "discretionary waiver" of the TSX Venture Exchange's minimum \$0.05 pricing requirement and is subject to acceptance by the TSX Venture Exchange. All securities issued pursuant to the Offering will be subject to a four month and one day hold period in accordance with applicable securities laws. The Offering is expected to close on or about December 13, 2019.

The Offering will be exempt from prospectus and registration requirements of applicable securities laws. The securities being offered have not been, nor will they be, registered under the United States Securities Act of 1933, as amended, and may not be offered or sold in the United States or to, or for the account or benefit of,

U.S. persons absent registration or an applicable exemption from the registration requirements. This press release shall not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of the securities in any State in which such offer, solicitation or sale would be unlawful.

Any existing shareholders interested in participating in the Offering should contact the Company as noted below or legal counsel to the Company, Peterson McVicar LLP, attention: Andrey Shamis (E:ashamis@petelaw.com. T: (647) 259-1786).

Forward Looking Statements:

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release. This News Release includes certain "forward-looking statements" which are not comprised of historical facts. Forward-looking statements include estimates and statements that describe the Company's future plans, objectives or goals, including words to the effect that the Company or management expects a stated condition or result to occur. Forward-looking statements may be identified by such terms as "believes", "anticipates", "expects", "estimates", "may", "could", "would", "will", or "plan". Since forward-looking statements are based on assumptions and address future events and conditions, by their very nature they involve inherent risks and uncertainties. Although these statements are based on information currently available to the Company, the Company provides no assurance that actual results will meet management's expectations. Risks, uncertainties and other factors involved with forward-looking information could cause actual events, results, performance, prospects and opportunities to differ materially from those expressed or implied by such forward-looking information. Forward looking information in this news release includes, but is not limited to, the Company's objectives, goals or future plans, statements, exploration results, potential mineralization, the estimation of mineral resources, exploration and mine development plans, timing of the commencement of operations and estimates of market conditions. Factors that could cause actual results to differ materially from such forward-looking information include, but are not limited to failure to identify mineral resources, failure to convert estimated mineral resources to reserves, the inability to complete a feasibility study which recommends a production decision, the preliminary nature of metallurgical test results, delays in obtaining or failures to obtain required governmental, environmental or other project approvals, political risks, inability to fulfill the duty to accommodate First Nations and other indigenous peoples, uncertainties relating to the availability and costs of financing needed in the future, changes in equity markets, inflation, changes in exchange rates, fluctuations in commodity prices, delays in the development of projects, capital and operating costs varying significantly from estimates and the other risks involved in the mineral exploration and development industry, and those risks set out in the Company's public documents filed on SEDAR. Although the Company believes that the assumptions and factors used in preparing the forward-looking information in this news release are reasonable, undue reliance should not be placed on such information, which only applies as of the date of this news release, and no assurance can be given that such events will occur in the disclosed time frames or at all. The Company disclaims any intention or obligation to update or revise any forward-looking information, whether as a result of new information, future events or otherwise, other than as required by law.
