

EnviroLeach Announces R2/RIOS Certification for EnviroCircuit

17.12.2019 | [ACCESS Newswire](#)

VANCOUVER, December 17, 2019 - EnviroLeach Technologies Inc. (the "Company" or "EnviroLeach"), (CSE:ETI)(OTCQB:EVLLF)(7N2: FSE) is pleased to announce its electronics recycling facility ("EnviroCircuit") located in Surrey, BC has been awarded R2/RIOS certification which honours EnviroCircuit as a certified electronics recycler meeting strict standards by which to safely recycle and manage end of life electronics.

Duane Nelson, President and CEO comments; "I am very pleased to announce this tremendous milestone in the operation of our recycling facility which took more that 11 months hard work by our dedicated team."

About the R2/RIOS certification

The R2 standard, facilitated and supported by Sustainable Electronics Recycling International (SERI), was the result of a multi-stakeholder process that included government agencies, major OEMs, recyclers, and other experts in sustainability and recycling. R2 requires a management system such as RIOS, as well as stringent controls and tracking of products and materials "downstream" of the recycler, including verifying the legality of exports, health and safety of workers.

The Recycling Industry Operating Standard ("RIOS") was introduced by the Institute of Scrap Recycling Industries. RIOS provides a framework for a comprehensive, integrated management system that includes key operational and continual improvement elements targeting quality, environmental and health and safety performance. The six components of RIOS cover general requirements, policy, planning, implementation, checking and corrective action, and management.

About EnviroLeach Technologies Inc.

EnviroLeach Technologies is engaged in the development and commercialization of environmentally friendly formulas and technologies for the treatment of materials in the mining and recycling sectors. Using its proprietary non-cyanide, water-based, neutral pH treatment process EnviroLeach extracts precious metals from ores, concentrates, and E-Waste using only FDA approved additives and ambient temperature water.

Backed by the momentum of a first-class staff of scientists and engineers, tens of thousands individual assays, independent validations and strategic partners and over \$15 Million dollars in research and development, EnviroLeach's technology will become the standard for the provision of eco-friendly methods for the hydrometallurgical extraction of precious metals in both the conventional mining and E-Waste sectors. Forward Looking Statements

This News Release contains "forward-looking information" and "forward looking statements" within the meaning of applicable Canadian and United States securities legislation. Statements contained herein that are not based on historical or current fact, including without limitation statements containing the words "anticipates," "believes," "may," "continues," "estimates," "expects," and "will" and words of similar import, constitute "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking information may include, but is not limited to, information with respect to our Research and Development activities, the accuracy of our capital and operating cost estimates; production and processing estimates; the results, the adequacy of EnviroLeach's financial resources and timing of development of ongoing research and development projects, costs and timing of future revenues or profits

and adequacy of financial resources. Wherever possible, words such as "plans", "expects", "projects", "assumes", "budget", "strategy", "scheduled", "estimates", "forecasts", "anticipates", "believes", "intends", "targets" and similar expressions or statements that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved, or the negative forms of any of these terms and similar expressions, have been used to identify forward-looking statements and information. Statements concerning future revenue or earnings estimates may also be deemed to constitute forward-looking information. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance are not statements of historical fact and may be forward-looking information. Forward-looking information is subject to a variety of known and unknown risks, uncertainties and other factors that could cause actual events or results to differ from those expressed or implied by the forward-looking information. Forward-looking information is based on the expectations and opinions of EnviroLeach's management on the date the statements are made. The assumptions used in the preparation of such statements, although considered reasonable at the time of preparation, may prove to be imprecise. We do not assume any obligation to update forward-looking information, whether as a result of new information, future events or otherwise, other than as required by applicable law. For the reasons set forth above, prospective investors should not place undue reliance on forward-looking information. The CSE has not approved or disapproved of the information contained herein.
