## About Bravada

Bravada is an exploration company with a portfolio of high-quality properties in Nevada, one of the best mining jurisdictions in the world. The Company has successfully identified and advanced properties that have the potential to host high-margin deposits while successfully attracting partners to fund later stages of project development. With the addition of OceanaGold's option of Highland, four of Bravada's eleven Nevada properties are being funded by partners. As well, there are no NSR-type royalties to vendors that cannot be reduced. Bravada's value is underpinned by a substantial gold and silver resource with a positive PEA at Wind Mountain and the Company has significant upside potential from possible new discoveries at its exploration properties, most of which host encouraging drill intercepts of gold and which already have drill targets developed by the Company.
