About Alexco

Alexco is a Canadian primary silver company that owns the majority of the historic high-grade Keno Hill Silver District (the "District") in Canada's Yukon Territory. Alexco has a long history of expanding Keno Hill's mineral resources through successful exploration and is currently advancing a development plan for the District. In 2019, the Company published a positive pre-feasibility study ("PFS") that estimates production of 1.12 million tonnes of ore at an average rate of 430 tonnes per day at an average grade of 805 grams per tonne silver over an 8-year mine life from the Flame & Moth, Bermingham, Bellekeno and Lucky Queen deposits. Alexco is in the final phase of the permitting process and is currently advancing key surface infrastructure while it awaits the final permit to make a positive construction decision.

Further information about the project, including the effective date of the estimates and summary of assumptions, parameters and risks relating to mineral resources, mineral reserves and the PFS, can be found in Alexco's technical report entitled "NI 43-101 Technical Report on Preliminary Feasibility Study of the Keno Hill Silver District Project, Yukon Territory, Canada" filed on May 8, 2019, as amended February 14, 2020, on Alexco's profile on Sedar at www.sedar.com.
