## **Announces 13-day Extension to the Suspension of Its Yauricocha Mining Operations in Accordance With the Government Extension of Its Declaration of a State of Emergency to Contain the Advancement of the COVID-19 Virus in Peru**

[Sierra Metals Inc.](#) (TSX: SMT) (BVL: SMT) (NYSE AMERICAN: SMTS) (?Sierra Metals? or the ?Company?) announced that the Peruvian government has extended the state of emergency by an additional 13 days to contain the advancement of COVID-19 virus. Non-essential businesses are required to be shut down and travel remains restricted within the country. As a result of this extension of the declaration, the Company will only maintain an essential services crew at site until April 12, 2020 at which time the Company anticipates resuming normal production levels at the Mine.

Igor Gonzales, President, and CEO of Sierra Metals, commented, ?A smaller workforce will be maintained to oversee critical aspects of the operation, with the primary goal of facilitating a quick and efficient ramp up back to normal levels once the regional situation improves and state of emergency is lifted. Our team continues to be focused on the health and safety of our workforce. The Company also expects the government processes related to permitting applications to be deferred during this state of emergency.?

Production can recommence very quickly, and the Company has the operating flexibility to temporarily run the ore processing mill above the 3,150 tonne per day capacity, which should help Yauricocha recover lost ore tonnages from this stoppage.

Due to uncertainty of the effect that the COVID-19 Pandemic could have on the Company?s operations and financial condition and, rapidly changing developments, the Company is currently implementing proactive and reactive mitigation measures to minimize any potential impacts COVID-19 may have on our people, communities, operations, supply chain, and finances. This also includes preserving capital and deferring capital programs where appropriate, to improve liquidity. The Company is maintaining its guidance due to its operating flexibility at Yauricocha in Peru and the normal operations of its Mexican mines at this moment. If material changes occur the company would update its guidance promptly and expects to provide a more comprehensive update with more data points on metal prices and operating developments as part of the Q1 2020 reporting process.
