

Wealth Provides Partnership Update

08.04.2020 | [GlobeNewswire](#)

VANCOUVER, April 08, 2020 - [Wealth Minerals Ltd.](#) (the "Company" or "Wealth") - (TSXV: WML; OTCQX: WMLLF; SSE: WMLCL; Frankfurt: EJZN), announces an update regarding the Company's relationship with state-owned National Mining Company of Chile ("ENAMI").

On March 19, 2018 Wealth Minerals signed a strategic alliance agreement (the "Agreement") with ENAMI, whereby the parties agreed to form a partnership (the "JV") to develop and commercialize the Company's project in the Salar de Atacama (see *press release of March 19, 2018*). The Agreement provided that the parties would have 24-months to enter into a definitive agreement that will govern the formation and operation of the JV. The Agreement's 24-month period to form a JV has now expired. The Board of Directors of ENAMI took the decision to let the Agreement lapse due to pending Chilean legislation regarding regulations for lithium production, taxation and various deregulation steps.

Wealth's CEO, Henk Van Alphen, said, "I note that in mid-2019 the Chilean government announced legislative steps to make the regulatory regime for lithium similar to that for gold and copper, which does not require any special state arrangements. ENAMI has left the door open for cooperation and we will continue to bring in all stakeholders; financial, technological, state actors and indigenous groups; for the advancement of our lithium projects."

About Wealth Minerals Ltd.

Wealth is a mineral resource company with interests in Canada, Mexico and Chile. The Company's main focus is the acquisition and development of lithium projects in South America.

The Company opportunistically advances battery metal projects, namely copper and nickel, where it has a peer advantage in project selection and initial evaluation.

Lithium market dynamics and a rapidly increasing metal price are the result of profound structural issues with the industry meeting anticipated future demand. Wealth is positioning itself to be a major beneficiary of this future mismatch of supply and demand. In parallel with lithium market dynamics, Wealth believes other battery metals will benefit from similar industry trends.

Cautionary Note Regarding Forward-Looking Statements

This news release contains forward-looking statements and forward-looking information (collectively, "forward-looking statements") within the meaning of applicable Canadian and U.S. securities legislation, including the United States Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical fact, included herein including, without limitation, anticipated exploration program results from exploration activities, the Company's expectation that it will be able to enter into agreements to acquire interests in additional mineral properties, the discovery and delineation of mineral deposits/resources/reserves, the closing and amount of the Placement, and the anticipated business plans and timing of future activities of the Company, are forward-looking statements. Although the Company believes that such statements are reasonable, it can give no assurance that such expectations will prove to be correct. Forward-looking statements are typically identified by words such as: "believe", "expect", "anticipate", "intend", "estimate", "postulate" and similar expressions, or are those, which, by their nature, refer to future events. The Company cautions investors that any forward-looking statements by the Company are not guarantees of future results or performance, and that actual results may differ materially from those in forward-looking statements as a result of various factors, including, operating and technical difficulties in connection with mineral exploration and development activities, actual results of exploration activities, the estimation or realization of mineral reserves and mineral resources, the timing and amount of estimated future production, the costs of production, capital expenditures, the costs and timing of the development of new deposits, requirements for additional capital, future prices of lithium, changes in general economic conditions, changes in the financial markets and in the demand and market price for commodities, lack of investor interest in the Placement, accidents, labour disputes and other risks of the mining industry, delays in obtaining governmental approvals, permits or financing or in the completion of development or construction activities, changes in laws, regulations and policies affecting mining operations, title disputes, the inability of the Company to obtain any necessary permits, consents, approvals or authorizations, including acceptance by the TSX-V, required for the Placement, the timing and possible outcome of any pending litigation, environmental issues and liabilities, and risks related to joint venture operations, and other risks and uncertainties disclosed in the Company's latest interim Management Discussion and Analysis and filed with certain securities commissions in Canada. All of the Company's Canadian public disclosure filings may be accessed via www.sedar.com and readers are urged to review these materials, including the technical reports filed with respect to the Company's mineral properties.

Readers are cautioned not to place undue reliance on forward-looking statements. The Company undertakes no obligation to update any of the forward-looking statements in this news release or incorporated by reference herein, except as otherwise required by law.
