

# Omineca Closes \$626,000 and Increases Unit Component of Offering to \$1,000,000

28.04.2020 | [CNW](#)

/NOT FOR DISTRIBUTION TO UNITED STATES NEWSWIRE SERVICES OR FOR DISSEMINATION IN THE UNITED STATES

SASKATOON, April 28, 2020 - [Omineca Mining and Metals Ltd.](#) (TSX-V: OMM) ("Omineca" or the "Company") announced the initial closing of its previously announced private placement. Pursuant to the initial closing, Omineca raised aggregate gross proceeds of \$626,000 through the issuance of 5,216,665 units of the Company ("Units") at a price of \$0.12 per Unit. Omineca now announces that it is increasing the Unit component of its non-brokered private placement of units (the "Units") from a maximum of up to 4,166,666 Units to a maximum of up to 8,333,333 Units at a price of \$0.12 per Unit for gross proceeds of approximately \$1,000,000. The flow through share component of the private placement remains unchanged, being an allotment of up to 6,250,000 common shares of the Company to be issued on a flow through basis at a price of \$0.16 for gross proceeds of approximately \$1,000,000. The final closing of the private placement is scheduled to occur on or before May 10, 2020.

Omineca is planning a hard rock exploration and drilling program at Wingdam, which represents the Company's initial exploration program for the lode gold source of placer gold recovered from the underground paleochannel at Wingdam, BC, Canada. Once finalized, the exploration plan will begin with structural mapping and trenching, followed with diamond drilling of up to 200 holes in four initial target areas for a planned 6,000 meters. This will be Omineca's first drill program for lode gold at Wingdam.

The drill program is targeting NW striking faults where they intersect NE trending faults identified in the magnetic survey conducted in 2018. This structural control pattern is indicative of Riedel style strike-slip deformation that would produce sub-vertical structures similar to the structural controls of the gold hosted at Osisko Gold Royalties' Cariboo Gold Project at Barkerville, 25 kilometers to the east.

In an earlier SkyTEM survey, a large electro-magnetic signature was identified immediately upstream of Omineca's underground placer recovery program at Wingdam. The Lightning Creek river valley is a major erosional feature cross-cutting through parallel structures including the large SkyTEM electro-magnetic anomaly. The creek itself is known to contain high concentrations of placer gold immediately adjacent to and downstream of the electro-magnetic anomaly (see NI 43-101 report on 2012 sample at Wingdam conducted by OMM's wholly owned subsidiary CVG Mining). Parallel structures with similar geology are expected to host lode gold within the region. A number of placer gold nuggets recovered in 2012 were rough to jagged edged and some cases contained quartz pieces, potentially indicative of a nearby lode source.

Exploration will commence once the snow cover has melted and drill permits have been received. This exploration program will proceed concurrently with the underground rehabilitation and development work on the Wingdam paleo placer project, which will commence after the spring thaw.

## About Omineca Mining and Metals Ltd.

[Omineca Mining and Metals Ltd.](#) controls its flagship Wingdam Project and the Fraser Canyon Project through its wholly owned subsidiary CVG Mining Ltd. The Wingdam Project is located 45 km east of Quesnel B.C. on the Barkerville highway. The project includes both placer and hard-rock tenures along the Lightning Creek valley, where topographic conditions created a thick overburden which preserved a large portion of the channel from conventional surface placer mining activity.

This news release does not constitute an offer to sell, or the solicitation of an offer to buy securities in any jurisdiction in which such offer or solicitation would be unlawful prior to registration or qualification under the securities laws of such jurisdiction.

The securities offered under the offering have not been and will not be registered under the United States Securities Act of 1933, as amended (the "Securities Act"), or the securities laws of any state of the United States, and may not be offered or sold in the United States or to, or for the account or benefit of, any U.S. Person (as defined in Regulation S of the Securities Act) or a person in the United States, unless an exemption from such registration requirements is available.

#### Forward Looking Statements

This release includes forward-looking statements regarding Omineca and its business. Such statements are based on the current expectations and views of future events of Omineca's management. In some cases, the forward-looking statements can be identified by words or phrases such as "may", "will", "expect", "plan", "anticipate", "intend", "potential", "estimate", "believe" or the negative of these terms, or other similar expressions intended to identify forward-looking statements. The forward-looking events and circumstances discussed in this release may not occur and could differ materially as a result of the failure to consummate the project financing, the economic feasibility of the Wingdam Project, known and unknown risk factors and uncertainties affecting Omineca, including the impact of the COVID-19 pandemic on the Company and its business, risks regarding the resource industry, economic factors and the equity markets generally and many other factors beyond the control of Omineca. No forward-looking statement can be guaranteed. Forward-looking statements and information by their nature are based on assumptions and involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statement or information. Accordingly, readers should not place undue reliance on any forward-looking statements or information. Forward-looking statements speak only as of the date on which they are made and Omineca undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events, or otherwise, except as required by applicable securities laws.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
