## About Teuton

Teuton owns interests in more than thirty properties in the prolific "Golden Triangle" area of northwestern British Columbia and was one of the first companies to adopt what has since become known as the "prospect generator" model. Seven of these properties are currently under option to third parties. Over \$4 million in option cash payments and shares in optionee companies has been generated from these properties since 2015, including properties where optionees have already earned their interest.

Teuton was the original staker of the Treaty Creek property assembling the core land position in 1985. It presently holds a 20% carried interest in Treaty Creek (carried until such time as a production decision is made) as well as a 0.98% NSR in the claims covering the Goldstorm zone. A 0.49% NSR is owned in the peripheral claims. None of the NSRs are subject to a buy-back.

Teuton also owns many royalties in the Sulphurets Hydrothermal System with interests ranging up to 2.5%. None of these royalties are subject to a buyback. Interested parties can access information about Teuton at the Company's website, [www.teuton.com](http://www.teuton.com).
