Given the recent upswing in the precious metals, there has been a renewed interest in the mining and exploration markets. #### ABOUT ALLEGIANT

ALLEGIANT owns 100% of 10 highly-prospective gold projects in the United States, 7 of which are located in the mining-friendly jurisdiction of Nevada. Three of ALLEGIANT's projects are farmed-out, providing for cost reductions and cash-flow. ALLEGIANT's flagship, district-scale Eastside project hosts a large and expanding gold resource and is located in an area of excellent infrastructure. Preliminary metallurgical testing indicates that both oxide and sulphide gold mineralization at Eastside is amenable to heap leaching.
