

# Genesis Metals Reports Resumption of Phase I Drilling Program at Chevrier Gold Project, Quebec

14.05.2020 | [Newsfile](#)

Vancouver, May 14, 2020 - [Genesis Metals Corp.](#) (TSXV: GIS) ("Genesis" or the "Company") is pleased to report that the temporary suspension of mineral exploration activities in Quebec announced in the Company's March 26, 2020 news release has been lifted. The Phase I ~2,500 metre drilling program has recommenced and the Genesis team is completing logging and sampling of remaining previously drilled core on site.

Prior to the work stoppage, a total of 2,008 metres in 8 holes of the planned ~2,500 metre Phase I program had been drilled, and a portion of the core was logged and sampled. The Phase I drilling has focused on improving definition and testing for expansion opportunities of modelled higher-grade domains which are interpreted to form of plunging "shoots" within the Chevrier Main deposit.

Genesis is also advancing with plans for a summer surface exploration program to assess a number of target areas on the property identified through a property wide glacial till survey carried out in 2019 and a comprehensive review of all available data on the +290 square kilometer project area. Genesis is currently fully funded for its planned work in 2020 and expects to announce further drilling plans as drilling results are received and interpreted and field work progresses.

The Company will continue to monitor the evolving COVID-19 situation and will comply with all government directives and pro-actively follow protocols consistent with minimizing the spread of the COVID-19 virus to protect the health of its workforce and their local communities.

The +290 square kilometer road accessible Chevrier property covers a 15-kilometer extent of the Fancamp Deformation Zone, along which zones of gold mineralization are associated with high strain zones in predominantly mafic volcanic rocks. The property is contiguous with the high-grade Monster Lake gold project and 20 kilometers northeast of the new IAMGOLD Corporation/[Vanstar Mining Resources Inc.](#) 3.1 Moz Nelligan gold discovery. For additional details on the Chevrier Project, 2019 results and plans for 2020 please refer to the Company's February 5, 2020 News Release.

The Company has entered into a 12-month programmatic digital advertising campaign with Native Ads, Inc. for a total cost of \$200,000 CAD; comprised of \$150,000 for digital advertising, paid distribution, and media buying over the campaign period and, \$50,000 for content creation, consulting, managed services and management fees over the course of the campaign period.

About Native Ads Inc.

Native Ads is a full-service ad agency, that owns and operates a proprietary ad exchange with over 80 integrated SSPs (supply side platforms) resulting in access to 3-7 billion daily North American ad impressions. Neither Native Ads nor any of its directors and officers own any securities of the Company.

Qualified Person

The Qualified Person for this news release for the purposes of National Instrument 43-101 is André Liboiron, P. Geo., Project Manager. He has read and approved the scientific and technical information that forms the basis for the disclosure contained in this news release.

## About Genesis

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

Certain disclosure in this release, including statements regarding the Company's exploration plans; and compliance with all government directives and protocols to minimize the spread of the COVID-19 virus constitute forward-looking information or statements (collectively, "forward-looking statements") for the purpose of applicable securities laws. In making the forward-looking statements, the Company has applied certain factors and assumptions that are based on the Company's current beliefs as well as assumptions made by and information currently available to the Company, including that the Company is able to obtain any government or other regulatory approvals required to complete the Company's planned exploration and development activities; that the Company is able to procure personnel, equipment and supplies required for its exploration and development activities in sufficient quantities and on a timely basis; that the circumstances surrounding the COVID-19 pandemic, although evolving, will stabilize or at least not worsen; that the extent to which COVID-19 may impact the Company, including without limitation disruptions to the mobility of Company personnel, increased labour and transportation costs, and other related impacts, will not change in a materially adverse manner; that actual results of exploration activities are consistent with management's expectations; that the current price and demand for gold will be sustained or will improve; that general business and economic conditions will not change in a materially adverse manner. Although the Company considers these assumptions to be reasonable based on information currently available to it, they may prove to be incorrect, and the forward-looking statements in this release are subject to numerous risks, uncertainties and other factors that may cause future results to differ materially from those expressed or implied in such forward-looking statements. Such risks include, among others, the risks related to the inability to obtain required regulatory approvals on a timely basis or at all, that the risk that actual results of the Company's exploration activities may be different than those expected by management; COVID-19 risks to employee health and safety and a slowdown or temporary suspension of operations in geographic locations impacted by an outbreak; inability to procure required equipment and supplies in sufficient quantities and on a timely basis; the nature of mineral exploration and mining and the uncertain commercial viability of certain mineral deposits; the Company's lack of operating revenues and risks related to dependence on key personnel. Readers are cautioned not to place undue reliance on forward-looking statements. The Company does not intend, and expressly disclaims any intention or obligation to, update or revise any forward-looking statements whether as a result of new information, future events or otherwise, except as required by law.
