HALIFAX, June 11, 2020 - [GoGold Resources Inc.](#) (TSX: GGD) (OTCQX: GLGDF) ("GoGold", "the Company") is pleased to announce that they have began drilling at their Los Ricos North project.

The Company has began drilling with one drill rig at the La Trini target, which is included in the Los Ricos North project. The first holes will be drilled using HQ triple tube core drilling equipment to maximize core recoveries at shallow depths and are being laid out to 'twin' historical drill holes completed by Tumi Resources and National Lead. Details of the historical drill holes are included in the table below. The Company's exploration team has located the monuments from these historical holes. Upon completion of the 'twinning' of these holes, the Company expects that the historical data from these holes will then be able to be used in future resource reporting.

The Company expects to add additional drill rigs to the Los Ricos North project in the near future at the La Trini, Mololoa, and Salomon targets.
