Recent Company Highlights

- Drilling campaign underway at the Red Star high-grade silver/lead discovery
- Updated Empire Mine oxide open pit NI 43-101 compliant resources announced in May 2020 with significant increases in all metals, gold/copper/silver/zinc
- Initial Empire Mine open pit metallurgical testwork on gold processing announced revealing significant environmentally-friendly recovery results
- New ESG Coordinator appointed and announcement of the completion of environmental studies reporting no issues found

About Phoenix Copper Ltd

[Phoenix Copper Ltd.](#) is a North American focused, base and precious metal explorer and developer, which has carried out a drilling programme and generated a gold, copper, silver and zinc resource on which it is carrying out a feasibility study to bring the historically producing Empire Mine in Idaho, USA, back into production. It is also drilling the high-grade silver/lead Red Star discovery, adjacent to the Empire Mine open pit and exploring and evaluating the silver/lead potential around three other past producing mines, as well as exploring the gold potential at the Carlin-type Navarre Creek property, all within the Company's 23 km² Empire system claims block. Additionally, the Company has two prospective claims' blocks north of Empire in Idaho.

About Virtual Investor Conferences®

Virtual Investor Conferences (VIC) is the leading proprietary investor conference series that provides an interactive forum for publicly-traded companies to meet and present directly with investors.
