

Mark Wittrup to Oversee Fission Uranium's Environmental Permitting Team

22.07.2020 | [CNW](#)

KELOWNA, July 22, 2020 - [Fission Uranium Corp.](#) ("Fission" or "the Company") (TSX SYMBOL: FCU, OTCQX SYMBOL: FCUUF, FRANKFURT SYMBOL: 2FU) announces that it is continuing with its environmental permitting at its PLS project. Environmental permitting is a critical aspect of advancing a uranium project along the path to production. Federal and provincial regulations are straightforward but strict, and Fission has reached its current, strong position of readiness thanks to commencing by undertaking environmental and community work continuously since the discovery of uranium on its project.

Fission's regulatory and environmental permitting process is overseen by Mark Wittrup, MSc., P.Eng., P.Geo., CMC. Mr. Wittrup has 40 years of experience in the uranium sector and specializes in environmental and regulatory work. His background includes environmental and regulatory experience in Canada, the United States, Australia, Greenland and Kazakhstan, and was the project lead and lead author for the McArthur River EIS and licensing process. Mr. Wittrup has also worked as the Assistant Deputy Minister, Environmental Protection and Audit, with the Saskatchewan Ministry of Energy and Resources and is currently VP Environmental and Regulatory Affairs with the Clifton Engineering Group. He is Fission's special adviser on environmental matters to the Board and Management and is a Qualified Person on Environmental, Social and Governance "ESG" matters for mining and NI 43-101 reporting. Fission benefits greatly from having Mark Wittrup involved as a key member of the team who is one of the uranium industry's most respected environmental and regulatory experts.

Mark Wittrup comments, "With a nuclear revival on the horizon due to the low-green house gas nature of nuclear power, Fission has built a strong technical, environmental and social foundation on which to advance the project. The Patterson Lake area is a special place and it is exciting to be involved in a project where ESG considerations are recognized as essential and are being implemented."

Patterson Lake South Property

The 31,039 hectare PLS project is 100% owned and operated by [Fission Uranium Corp.](#) PLS is accessible by road with primary access from all-weather Highway 955, which runs north to the former Cluff Lake mine and passes through the nearby UEX-Areva Shea Creek discoveries located 50km to the north, currently under active exploration and development.

The technical information in this news release has been prepared in accordance with the Canadian regulatory requirements set out in National Instrument 43-101 and reviewed on behalf of the company by Ross McElroy, P.Geol., President and COO for [Fission Uranium Corp.](#), a qualified person.
