VANCOUVER, July 28, 2020 - <u>Dolly Varden Silver Corp.</u> ("Dolly Varden" or the "Company") (TSXV: DV) (OTC:DOLLF), is pleased to announce that, due to strong investor demand, it has agreed with Mackie Research Capital Corporation, co-lead agent and sole bookrunner, along with Eventus Capital Corp., co-lead agent (together, the "Agents"), in connection with the previously announced best efforts private placement of units of the Company (the "Units") at a price of \$0.71 per Unit (the "Offering Price") to increase the size of the offering for gross proceeds of up to \$10,000,000 (the "Offering"). Continuing with his support of Dolly Varden, Mr. Eric Sprott is expected to subscribe into the Offering to maintain his 19.9% interest.

Each Unit will be comprised of one common share of the Company (a "Common Share") and one-half of one Common Share purchase warrant (each whole warrant, a "Warrant"). Each Warrant shall be exercisable to acquire one Common Share (a "Warrant Share") at a price of \$1.10 per Warrant Share for a period of 24 months from the closing of the Offering. Provided that if, at any time prior to the expiry date of the Warrants, the closing price of the Common Shares on the TSX Venture Exchange (the "Exchange"), or other principal exchange on which the Common Shares are listed, is greater than \$1.75 for 10 consecutive trading days, the Company may, at the Company's discretion, and at any time going forward, within 15 days of the occurrence of such event, deliver a notice to the holders of Warrants accelerating the expiry date of the Warrants to the date that is 30 days following the date of such notice (the "Accelerated Exercise Period"). Any unexercised Warrants shall automatically expire at the end of the Accelerated Exercise Period.

The Company intends to use the net proceeds from the Offering for further exploration, mineral resource expansion and drilling at the Dolly Varden silver property in northwestern British Columbia, Canada, working capital and general corporate purposes.

The securities to be issued under the Offering will be offered by way of private placement in each of the provinces of Canada, other than Quebec, and such other jurisdictions as may be determined by the Company, in each case, pursuant to applicable exemptions from the prospectus requirements under applicable securities laws.

The Offering is scheduled to close on or about the week of August 17, 2020, or such date as agreed upon between the Company and the Agents (the "Closing") and is subject to certain conditions including, but not limited to, the receipt of all necessary approvals including the approval of the Exchange. The Units to be issued under the Offering will have a hold period of four months and one day from Closing.

Pursuant to the ancillary rights agreement between Hecla Canada Ltd. ("Hecla") and the Company dated September 4, 2012, Hecla will be entitled to acquire Units at a price of \$0.71 per Unit to maintain its pro rata equity interest in the Company. If Hecla exercises its pro rata rights under the ancillary rights agreement, any Units issued to Hecla will be in addition to those issued as part of the Offering.

In connection with the Offering, the Agents will receive an aggregate cash fee equal to 6.0% of the gross proceeds from the Offering, including in respect of any exercise of the Agent's Option. In addition, the Company will grant the Agents, on date of Closing, non-transferable compensation warrants (the "Compensation Warrants") equal to 6.0% of the total number of Units sold under the Offering (including in respect of any exercise of the Agent's Option). Each Compensation Warrant will entitle the holder thereof to purchase one Common Share at an exercise price equal to the Offering Price for a period of 24 months following the Closing.

About Dolly Varden Silver Corporation

<u>Dolly Varden Silver Corp.</u> is a mineral exploration company focused on exploration in northwestern British Columbia. Dolly Varden has two projects, the namesake Dolly Varden silver property and the nearby Big Bulk copper-gold property. The Dolly Varden property is considered to be highly prospective for hosting high-grade precious metal deposits, since it comprises the same structural and stratigraphic setting that host numerous other high-grade deposits (Eskay Creek, Brucejack). The Big Bulk property is prospective for porphyry and skarn style copper and gold mineralization similar to other such deposits in the region (Red Mountain, KSM, Red Chris).
