

Etruscus Launches 2020 Exploration Season with VTEM

29.07.2020 | [CNW](#)

VANCOUVER, July 29, 2020 - [Etruscus Resources Corp.](#) (CSE: ETR) (FSE: ERR) (the "Company" or "Etruscus") has launched Phase 1 of its 2020 exploration season at its Rock & Roll and Sugar properties located in the Eskay Camp of BC's resource-rich Golden Triangle. After its successful inaugural year of exploration and ongoing data analysis, the Company enters 2020's exploration with great optimism. The Company's immediate plans are to aggressively follow up prioritized targets with surface prospecting, mapping and a VTEM© survey across the majority of the Company's mineral claim area (Click Here to View Map).

2020 VTEM© Highlights:

- To enhance conductivity data around the Black Dog Deposit and the recently discovered "Wall Target" to significantly expand depth and size potential of the Deposit;
- To refine geochemical and geophysical anomalies located at the Rob area and Skarn area that may represent other mineralizing systems near the Black Dog Deposit; and
- To complete the first ever airborne survey and compile VTEM© data covering 137 sq. km of previously untested, unexplored prospective terrain near receding glaciers on both the extended Rock & Roll claims and the Sugar claim.

Results from early in the season will guide further exploration and drilling plans later in the season. Specifically, the VTEM© results will help Etruscus identify areas of geophysical interest that, when viewed with geological maps and geochemical data, are expected to pinpoint new, untested drill targets in this highly underexplored terrain.

"The low elevation location of our property will allow us to continue work later in the year, compared to surrounding camps. Surging gold and silver prices also enhance the value of our existing gold-silver rich Black Dog Deposit and motivate us to increase the intensity of our exploration programs, with a view to expanding resources and identifying new discoveries. The immediately surrounding area is highly active, especially with neighbour Skeena Resources recently announcing a major resource at the past-producing Snip Mine just 7 km away. We are well-positioned with a great property hosting numerous high-priority targets that we believe could lead to large, high-grade deposits," President and CEO Gordon Lam commented.

About Etruscus

[Etruscus Resources Corp.](#) is a Vancouver-based exploration company focused on the development of its 100%-owned Rock & Roll and Sugar properties comprising 27,136 hectares near the past producing Snip mine in Northwest B.C.'s prolific Golden Triangle.

Etruscus is traded under the symbol "ETR" on the Canadian Securities Exchange and "ERR" on the Frankfurt Stock Exchange and has 22,453,501 common shares issued and outstanding.

CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This Press Release may contain statements which constitute 'forward-looking' statements, including statements regarding plans, intentions, beliefs and current expectations of the Company, its directors, or its officers with respect to the future activities and operating performance of the Company. The words "may", "would", "could", "will", "intend", "plan", "anticipate", "believe", "estimate", "expect" and similar expressions, as they relate to the Company, or its management, are intended to identify such forward-looking statements. Investors are cautioned that any such forward-looking statements are not guaranteed.

of future business activities or performance and involve risks and uncertainties, and that the Company's future business activities may differ materially from those in the forward-looking statements as a result of various factors. Such risks, uncertainties and factors are described in the periodic filings with the Canadian Securities regulatory authorities, including quarterly and annual Management's Discussion and Analysis, which may be viewed on SEDAR at www.sedar.com. Should one or more of these risks or uncertainties materialize, or should assumptions underlying the forward-looking statements prove incorrect, actual results may vary materially from those described herein as intended, planned, anticipated, believed, estimated or expected. Although the Company has attempted to identify important risks, uncertainties and factors which could cause actual results to differ materially, there may be others that cause results not to be as intended, planned, anticipated, believed, estimated or expected. The Company does not intend, and does not assume any obligation, to update these forward-looking statements.

Neither the CSE nor its Regulation Services Provider (as that term is defined in the policies of the CSE) accepts responsibility for the adequacy or accuracy of this release.
