For complete details of the unaudited Interim Consolidated Financial Statements and associated Management’s Discussion and Analysis please refer to the Company’s filings on SEDAR (www.sedar.com) or the Company’s website (www.silverbearresources.com).

Q2 2020 QUARTER HIGHLIGHTS

During the six-month period ended 30 June 2020 the Group production statistics included:

- Mined a total of 75,415 tonnes of ore, processed 54,889 tonnes of ore at an average grade of 676.9 g/t of silver, producing a total of 1,034,282 ounces of silver;
- Sold a total of 1,065,378 ounces of silver totalling production revenue of US\$17,670,112 and reported a total comprehensive loss of \$26,042,816 and an accumulated deficit of \$204,957,472.
- On 27 May 2020, the Group announced a further amendment to its Facilities Agreement with Inflection Management Corporation Limited (“Inflection”), a major shareholder of the Group, and Unifirm Limited (“Unifirm”), an affiliate of A.B. Aterra Resources Ltd. (“Aterra”), also a major shareholder of the Group, whereby the major shareholders agreed to a further reduction in interest payable on all funds drawn under the facilities agreement from 9% to 7% per annum (see full details below);
- In late May 2020, the CEO stated that despite the initial delay in the final commissioning of the new X-Ray transmission (“XRT”) processing equipment due to government-mandated COVID-19 restrictions, the consultants, following a prescribed quarantine period, have completed the commissioning. The XRT equipment is now fully operational;
- On 22 June 2020, the Group announced following the receipt of the draft Wardell Armstrong report (the “Draft WA Report”) based on the material change in the mineral resource estimates of both Vertikalny and Mangazeisky North deposits and scope of the project the August 2017 NI 43-101 technical report containing a resource update and accompanying Vertikalny feasibility study and Mangazeisky pre-feasibility study should no longer be relied upon and are withdrawn by the Group. In the statement, the Group stated that finalization of the Draft WA Report is dependent on Wardell Armstrong conducting a site visit to the its mining operations, owing to government mandated COVID-19 restrictions the site visit has been delayed for an indefinite period of time, (full details are described below); and
- As of the date of this report, the Group confirms there have been no major disruptions at either sites or to the Group’s planned production and operations due to the COVID-19 pandemic.

MANGAZEISKY SILVER PROJECT COMMERCIAL PRODUCTION

The Group achieved first pre-commercial silver production in 1 April 2018 through its commissioning activities at the Mangazeisky Silver Project as construction of the processing plant and associated infrastructure was completed. The Group achieved commercial production at the beginning of the third quarter of year 2019. During the Q2 2020, the Group continued to increase its productivity in mining and processing with the finalization of the XRT processing equipment commissioning in late May 2020. The table below details the production highlights for the three and six-month period ended 30 June 2020 and 2019.

Development & Operational Activities

During the first quarter, the Group's 2020 winter road procurement and transportation delivered approximately 14,000 tonnes of supplies, including new drill rig, excavator and the new XRT processing equipment. The winter road was closed on 30th of April this year, and accomplished delivery of all the Group's demand for gas condensate and diesel fuel. Deliveries for the summer and fall months are now via cargo flights using the Group's newly completed airstrip.

During the second quarter, in May 2020, following a prescribed quarantine period, the XRT consultants arrived at site and completed the final commissioning. The XRT equipment is now fully operational. The flotation facility construction project in its design development phase, with foundation construction to be started in the 3rd quarter 2020.

As of the date of this report there are no construction contractors and approximately 194 Prognoz employees at site. There are also 44 contractors, namely catering, process consultants, and construction workers. As of 30 June 2020, there was no lost time recorded accident at site. In light of the World Health Organization (WHO) declaring COVID-19 a global pandemic in March of this year, the Group has developed and implemented a response and mitigation plan for both its Yakutsk head office and Mangazeisky mine site. At the date of this report the Group has had no major disruptions at either sites or to our planned production and operations, however we continue to monitor the situation ensuring we keep the safety of our work force our main priority.

Corporate & Financing Activities

On 27 May 2020, the Group announced that it has further amended its existing facilities agreement (the Facilities Agreement) with Inflection Management Corporation Limited (Inflection), a major shareholder of the Company, and Unifirm Limited (Unifirm), an affiliate of A.B. Aterra Resources Ltd. (Aterra), also a major shareholder of the Company. The amendments to the Facilities Agreement (the Facilities Agreement Amendments): (i) reduce the interest payable on all funds drawn under the Facilities Agreement from 9% to 7% per annum; and (ii) extend the first interest period under the Facilities Agreement and revise the interest capitalization date to 1 April 2020.

The Facilities Agreement Amendments are a related party transaction under Multilateral Instrument 61-101 *Protection of Minority Security Holders in Special Transactions* (MI 61-101) because Inflection and Aterra, an affiliate of Unifirm, are related parties to the Company, as its major shareholders. Pursuant to Section 5.7(f) of MI 61-101, the Company is exempt from obtaining approval of the Company's minority shareholders as a result of the Facilities Agreement Amendments being an amendment to a loan to the Company (obtained from a related party on reasonable commercial terms that are not less advantageous to the Company than if such credit facility was obtained through an arm's length lender) that has no equity or voting component. The Company will file a material change report in respect of the Facilities Agreement Amendments. The Group filed a material change report in respect of the Facilities Agreement Amendments on December 24, 2019.

Exploration Activities

During the second quarter 2020, the Group was working on the completion of the details of its exploration program for the upcoming exploration season. During the season the Group is planning to target extensions of existing deposits and new areas of significance with the intent to grow the Group's resources and establish future drilling programs.

OUTLOOK FOR Q3 2020 AND REMAINDER OF YEAR

In order to fund further development operations and maintain rights under licenses and agreements, the Group has secured funding in the form of long-term loans of which the principal totals \$182 millions and the Group may be dependent on securing additional financing until such time that it generates sufficient operating cash flow to meet its liabilities.

In consideration of the Group's going concern and following the initiation of silver production in the second quarter of 2018 and now achieving full commercial production in the third quarter of 2019 the Group's priorities for third quarter 2020 and remainder of the year are as follows:

- Although at the date of this report COVID-19 has not materially impacted the Group's silver production, there is no guarantee that it will not going forward, as such the forecast for the whole of 2020 has been revised to approximately 2.2 million ounces of silver;
- In Q3 2020, the Group plans to finish the development documentation for flotation and start building the foundation;
- Complete the 2020 exploration program that target extension of existing deposits and new areas of significance with the intent to grow the Group's resources and establish future drilling programs;
- Continue to monitor all operations to further optimize operating costs and improve operational efficiencies; and
- Continue to build up operational capabilities and staffing and introduce new systems for production monitoring and management accounting.
