

# Go Metals Begins Drilling Monster IOCG

26.08.2020 | [Newsfile](#)

Vancouver, August 26, 2020 - [Go Metals Corp.](#) (CSE: GOCO) ("Go Metals" and/or the "Company") is pleased to announce that it has now mobilized a drill onto site at the Monster Project located in the Yukon 90km to the north of Dawson City. The Monster IOCG (Iron Oxide Copper Gold) project covers 63 square kilometers of the highly prospective Wernecke breccias in the Ogilvie Mountains and traditional territory of Tröndök Hwëch'in First Nation.

The drilling started yesterday on pad #1 over the Bloom target. The building process for the first 4 drill pads uncovered disseminated copper oxide and sulphide mineralization. The 5<sup>th</sup> drill pad was found to be underlain by massive hematite alteration which is an important vector for IOCG-style mineralization.

The drill locations are based on a combination of alteration mapping, magnetics, gravity, prospecting, and resistivity/IP. Over the next two weeks the Company plans to test 6 drill targets to a maximum depth of 250 m each.

Scott Sheldon, CEO of Go Metals comments "Uncovering previously unknown surface mineralization directly underneath our drill pads is a strong vote of confidence in our targeting methods. The company has conducted significant groundwork on the project over the last two years and we are excited by these initial positive indicators."

## Qualified Persons

Adrian Smith, P.Geo., is the qualified person for the Company as defined in the National Instrument 43-101 and has reviewed the technical information presented within this news release.

## About Go Metals:

Go Metals intends to find energy metal projects to help meet the demand for a battery powered future.

## Forward-Looking Information:

This press release may include "forward-looking information" (as that term is defined by Canadian securities legislation), concerning the Company's business. Forward-looking information is based on certain key expectations and assumptions made by the Company's management, including future plans for the exploration and development of its mineral properties. Although the Company believes that such expectations and assumptions are reasonable, investors should not rely unduly on such forward-looking information as the Company can give no assurance they will prove to be correct. Forward-looking statements in this press release are made as of the date of this press release. The company disclaims any intent or obligation to publicly update any forward-looking information (whether as a result of new information, future events or results, or otherwise) other than as required by applicable securities laws.
