

NGEx Minerals Reports Q2 2020 Results

28.08.2020 | [CNW](#)

VANCOUVER, Aug. 27, 2020 - [NGEx Minerals Ltd.](#) (TSXV: NGEX) ("NGEx Minerals" or the "Company") is pleased to announce its second quarter 2020 results for the three and six months ended June 30, 2020. [View PDF](#)

SECOND QUARTER 2020 HIGHLIGHTS AND OUTLOOK

Business Development Becomes Focal Point

The Company's main operating objective for the three months ended June 30, 2020 was the continuation of its project generation and business development activities, which are geared towards identifying new projects for potential acquisition. While exploration activities in respect to the Company's current portfolio of mineral properties in Chile and Argentina are temporarily halted due to the seasonal nature and seasonality of their exploration seasons and COVID-19-related restrictions imposed by the Company's operating jurisdictions, the Company's focus has shifted towards identification and assessment of potential investment and acquisition targets globally across various commodities.

The continuation of project generation initiatives is expected to be a significant focus for the Company going forward, and the Company seeks to leverage the strong ongoing support that it receives from its key shareholders and capitalize on available market opportunities.

Wojtek Wodzicki, President and CEO, commented, "While our offices and facilities in both Canada and South America have been largely closed during the second quarter in response to COVID-19, the Company has been making the most of out of this period by focusing on exploring and assessing various business development opportunities. There is definitely a bounty of interesting projects out there, across jurisdictions and commodities, and we have the benefit of being selective to ensure that any acquisitions are complementary to our business and add value to our shareholders. With the continued support from the Lundin Family, our largest shareholder, we are in an enviable position as we continue to pursue opportune additions to our portfolio of robust exploration assets."

COVID-19 Response Update

The Company continues to respond to the COVID-19 pandemic within the framework of internal protocols, and local and national health authority requirements and recommendations. The health and safety of the Company's employees, contractors, and other stakeholders remains NGEx Minerals' top priority. The Company's project facilities and offices have implemented travel restrictions, surveillance, monitoring and response plans to reduce the risk of COVID-19 exposure and outbreak, including health screening of personnel when appropriate. All non-critical business travel has also been curtailed. The Company will continue to monitor the situation and is prepared to implement additional changes to minimize any potential impacts of the global outbreak that may emerge at the Company's project site or offices, as necessary.

In response to COVID-19, many governments of varying levels around the world have issued certain public health orders and restrictions, including the respective jurisdictions in which Company's headquarters and operating subsidiaries operate. In addition to other effects, such restrictions impact the Company's movement of people, its access to properties and facilities, and its ability to conduct business in the normal course. The impacts to the Company to date have not been material, however, in the future, they may result in changes to the timing and nature of the Company's operating plans.

As of the date of this news release, the government of Argentina has implemented certain travel restrictions to limit the spread of COVID-19. Per the latest Argentine government policy, any foreigner who is not a resident in Argentina will not be permitted to enter Argentina. In addition, travel restrictions have been imposed by certain provincial authorities on inter-provincial travel within Argentina. In Chile, the government has declared a 90-day state of emergency, which took effect March 19, 2020, and was renewed on June 16, 2020 for an additional 90 days. Effective March 18, 2020, Chile's borders are closed for entry. Chilean citizens and permanent residents are exempted and may still enter Chile at this time. All foreigners and Chileans entering Chile are subject to a mandatory 14-day self-quarantine.

The COVID-19-related health and safety regulations implemented by health officials in the Company's operating jurisdictions continue to evolve, and the Company has employed certain practices and procedures to stay abreast of, and remain adaptable to, the fluid situation. Such practices and procedures include, but are not limited to: analysis of alternate staffing schedules, rotations and accommodation arrangements; development of internal testing and quarantine protocols, including early identification of suitable quarantine locations; and regular dialogue with local government and health officials.

As of the date of this news release, the Company cannot yet determine the impact of the COVID-19 pandemic on its financial position, results of operations and cash flows for the year ending December 31, 2020 and beyond. The foregoing notwithstanding, as the Company's business plan is impacted by its ability to obtain financing through global financial markets, it is anticipated that should the COVID-19 pandemic and/or the general depression of financial markets persist, the Company's ability to access financing on favourable terms may be negatively impacted.

As part of its response to the COVID-19 crisis and the resulting global economic instability, the Company has implemented cost saving measures, including reductions to discretionary expenditures.

FINANCIAL RESULTS

(In thousands of Canadian dollars, except per share amounts)

	Three months ended		Six months ended	
	June 30,		June 30,	
	2020	2019	2020	2019
Exploration and project investigation	484	801	2,351	2,155
General and administration ("G&A")	345	226	751	528
Net loss	843	1,034	2,913	2,684
Basic and diluted loss per share	0.01	0.01	0.02	0.02

The financial information in this table was selected from the Company's condensed interim consolidated financial statements for the three and six months ended June 30, 2020 (the "Financial Statements"), which are available on SEDAR at www.sedar.com. The Company's website www.ngexminerals.com.

SELECTED FINANCIAL INFORMATION

(In thousands of Canadian dollars)

	June 30, December 31,	
	2020	2019
Cash	2,473	5,559
Working capital	2,431	5,321
Mineral properties	4,669	4,765
Total assets	7,577	10,840

The financial information in this table was selected from the Financial Statements, which are available on SEDAR at www.sedar.com and the Company's website www.ngexminerals.com.

The Company incurred a net loss of \$0.8 million during the three months ended June 30, 2020, comprised primarily of \$0.5 million in exploration and project investigation costs and \$0.3 million in G&A costs. For the comparative three months ended June 30, 2019, the Company incurred a net loss of \$1.0 million, comprised primarily of \$0.7 million in exploration and project investigation costs and \$0.3 million in G&A costs.

2019, the Company reported a net loss of \$1.0 million, consisting mainly of \$0.8 million in exploration and project investigation costs and \$0.2 million in G&A costs. The lower net loss in the current period is generally the result of the decrease in exploration and project investigation costs as a result of the cessation of field activity in the current period due to seasonality of the projects and its COVID-19 response. By comparison, during the comparative period, the Company continued environmental baseline studies at the Los Helados Project during the second quarter of 2019.

LIQUIDITY AND CAPITAL RESOURCES

As at June 30, 2020, the Company had cash of \$2.5 million and net working capital of \$2.4 million, compared to cash of \$5.3 million and net working capital of \$5.3 million as at December 31, 2019. The decrease in the Company's cash and net working capital is due primarily to funds used in operations.

The Company plans to use the majority of its cash towards its key exploration projects in South America, its new business development efforts, and general corporate activities.

ABOUT NGEX MINERALS

NGEx Minerals is a Lundin Group copper and gold exploration company based in Canada with projects in Chile and Argentina. NGEx Minerals holds the large-scale Los Helados copper-gold deposit, located in Chile's Region III, as well as other exploration projects located in Argentina. NGEx Minerals is the majority partner and operator for the Los Helados Project, subject to an Exploration Agreement with its joint exploration partner in Chile, Pan Pacific Copper Co., Ltd. NGEx Minerals is actively exploring to add to its portfolio of projects as part of its overall growth strategy. The Company is listed on the TSXV under the trading symbol "NGEX".
