# **Crescent Point Updates Production Guidance** and Outlook

01.09.2020 | CNW

CALGARY, Sept. 1, 2020 - <u>Crescent Point Energy Corp.</u> ("Crescent Point" or the "Company") (TSX: CPG) and (NYSE: pleased to announce reactivation of economic volumes previously shut-in and provide revised 2020 guidance along with preliminary outlook for 2021.

## **KEY HIGHLIGHTS**

- Reactivated shut-in volumes, resulting in second half 2020 production increasing by approximately 20 percent.
- Capital expenditures expected to be approximately \$665 million in 2020, in-line with the lower end of the prior ran
- Generating approximately \$125 million of excess cash flow in second half of 2020.
- Preliminary 2021 outlook to sustain or exceed second half 2020 production with continued excess cash flow gene

"Our process to shut-in and reactivate economic production demonstrates our continued focus on returns in a discipline said Craig Bryksa, President and CEO of Crescent Point. "We expect to generate excess cash flow in the current price and have further increased our downside protection through our strong hedging portfolio. We have also enhanced our sin a low price environment through both ongoing improvements to our cost structure and the expected moderation in our rate."

#### REACTIVATION OF SHUT-IN VOLUMES AND REVISED 2020 GUIDANCE

During second quarter, Crescent Point shut-in certain higher cost production to preserve value and enhance its financial The Company's reactivation plan is now complete and all economic production has been brought back on-line.

Crescent Point's annual average production guidance is now forecast to be 119,000 to 121,000 boe/d. The mid-point of Company's revised 2020 guidance implies second half production of approximately 110,000 boe/d, which is approximately percent higher in comparison to its previous guidance. Crescent Point's 2020 capital expenditures are now expected to approximately \$665 million, in-line with the lower end of its prior guidance range of \$650 to \$700 million. The Company continued flexibility and discretion to adjust capital expenditures, if necessary.

Approximately 70 percent of Crescent Point's second half of 2020 oil and liquids production, net of royalty interest, is he primarily through swaps with an average price of over CAD\$65/bbl WTI. The Company has also hedged into 2021, and disciplined in its approach to layering on additional hedges in the context of commodity prices.

## OUTLOOK

Based on preliminary work done on its 2021 program and current market expectations, Crescent Point anticipates bein generate annual average production in 2021 that is in-line with, or exceeds, its estimated second half 2020 production spending approximately \$500 to \$550 million in development capital. The Company continues to work through its plans and expects to formalize its annual guidance early in the new year.

This 2021 preliminary program is expected to be fully funded in the low US\$40/bbl WTI range and generate excess cascurrent strip prices. Crescent Point's current funds flow sensitivity in 2021 is approximately \$45 million for every US\$1/b WTI.

14.11.2025 Seite 1/5

The Company retains flexibility and discretion in the allocation of its capital and overall operations in the event lower commodity prices, or other market developments, impacts its plans. Crescent Point will continue to focus on its key value drivers of disciplined capital allocation, cost efficiencies and balance sheet strength.

Crescent Point remains in a strong financial position, having over \$2.4 billion of available liquidity as at June 30, 2020 a material near term debt maturities.

## 2020 BUDGET AND GUIDANCE SUMMARY

Total annual average production (boe/d)	Prior	Revised
	110,000 – 114,000	119,000 – 121,000
	90%	91%
Development capital expenditures (\$ millions) (1) Drilling and development (%) Facilities and seismic (%)		\$665 90% 10%

(1) Development capital expenditures excludes approximately \$80 million of capitalized G&A, land acquisitions, capital leases and reclamation activities.

## Non-GAAP Financial Measures

Throughout this press release, the Company uses the terms "excess cash flow", and "net debt". These terms do not ha standardized meaning as prescribed by IFRS and, therefore, may not be comparable with the calculation of similar meaning presented by other issuers.

Adjusted funds flow from operations is calculated based on cash flow from operating activities before changes in non-capital, transaction costs and decommissioning expenditures. Transaction costs are excluded as they vary based on the Company's acquisition and disposition activity and to ensure that this metric is more comparable between periods. Decommissioning expenditures are discretionary and are excluded as they may vary based on the stage of Company's operating areas. Management utilizes adjusted funds flow from operations as a key measure to assess the ability of the to finance dividends, operating activities, capital expenditures and debt repayments. Adjusted funds flow from operation presented is not intended to represent cash flow from operating activities, net earnings or other measures of financial prediculated in accordance with IFRS.

Free cash flow is calculated as adjusted funds flow from operations less capital expenditures, payments on lease liabili retirement obligations and other cash items (excluding net acquisitions and dispositions). Excess cash flow is calculate cash flow less dividends. Management utilizes free cash flow and excess cash flow as key measures to assess the abi Company to finance dividends, potential share repurchases, debt repayments and returns-based growth.

Net debt is calculated as long-term debt plus accounts payable and accrued liabilities and long-term compensation liab equity derivative contracts, less cash, accounts receivable, prepaids and deposits and long-term investments, excluding unrealized foreign exchange on translation of US dollar long-term debt. Management utilizes net debt as a key measure the liquidity of the Company.

Management believes the presentation of the Non-GAAP measures above provide useful information to investors and as the measures provide increased transparency and the ability to better analyze performance against prior periods on comparable basis.
