

# Cyprrium Metals Ltd: Nanadie Well Copper Project Acquisition Completion

14.09.2020 | [ABN Newswire](#)

Perth, Australia - [Cyprrium Metals Ltd.](#) (ASX:CYM) is pleased to advise the completion of the acquisition of tenements E51/1040 and M51/887 from [Horizon Minerals Ltd.](#), which includes the Nanadie Well Cu-Au Project, which is located ~75km to the eastnortheast of Cyprrium's Hollandaire copper deposits.

A mining lease, M51/887, has also been granted for the Nanadie Well Copper-Gold Project and Cyprrium has applied for exploration tenements to the west and east of the Nanadie Well Copper- Gold Project (refer to Figure 1), to expand our regional presence in the area and increase the projects exploration prospectivity.

The project also has the Stark Cu-Ni-PGE prospect along with a number of drill ready targets that offer excellent exploration upside.

Executive Director Barry Cahill commented "We are pleased to complete the 100% acquisition of the Nanadie Well Project, which includes a substantial 2004 JORC compliant copper mineral resource that has multiple shallow and broad intersections which are open along strike and at depth. It has several drill ready targets that offer excellent exploration upside.

The Nanadie Well deposit and Stark mineralisation are both very prospective, and we will initially focus on geological interpretation activities from which we will then plan our resource definition and extensional drilling programmes. The Nanadie Well copper deposit is located only 75km to the east-northeast of our Hollandaire copper deposits and is an exciting addition that increases our regional mineral resource base which will be included in the ongoing Cue Copper Project scoping study."
