

# Pancon Resources to Webcast Live at VirtualInvestorConferences.com October 20th at 11:30 am ET

19.10.2020 | [PR Newswire](#)

**Company invites individual and institutional investors, as well as advisors and analysts, to attend real-time, interactive presentations on VirtualInvestorConferences.com**

TORONTO, Oct. 19, 2020 - Pancontinental Resources, or Pancon, (TSXV: PUC; OTCQB: PUCFF), a company focused on exploring the former Brewer Gold Mine on the prolific and underexplored Carolina Slate Belt in South Carolina, today announced that Layton Croft, Pancon CEO, will present live at VirtualInvestorConferences.com on October 20<sup>th</sup> at 11:30 am ET.

DATE: October 20, 2020  
TIME: 11:30 am ET  
LINK: <https://bit.ly/3IAKeK3>

This will be a live, interactive online event where investors are invited to ask the company questions in real-time. If attendees are not able to join the event live on the day of the conference, an archived webcast will also be made available after the event.

It is recommended that investors pre-register and run the online system check to expedite participation and receive event updates.

Learn more about the event at [www.virtualinvestorconferences.com](http://www.virtualinvestorconferences.com).

## Recent Pancon Highlights

- July 2020 &#8211; completed modern geophysical surveys and interpretations at flagship Brewer Gold Project
- September 2020 &#8211; completed shallow drill program (90 holes, 1,700 meters) to produce new mineralogy, geochemistry and assay data on modern geophysical anomalies and priority targets
- September 2020 &#8211; completed a fully subscribed private placement raising CAD\$3 million, following a March 2020 financing that also raised CAD\$3 million
- October 2020 &#8211; completed planning for first phase of a 10,000-meter diamond drill program

## About Pancon

Pancon is a Canadian junior mining company focused on exploring the prolific and underexplored Carolina Slate Belt in Chesterfield County, South Carolina, USA. In January 2020, Pancon won the exclusive right to explore the former Brewer Gold Mine. Between 1987-1995, Brewer produced 178,000 ounces of oxide gold from open pits that extended to 50-meter depths, where copper and gold-rich sulfides were exposed but could not be processed by the oxide heap leach processing facility. Brewer is a high sulphidation system driven by a sub-volcanic intrusive and possibly containing a large copper-gold porphyry system at depth, as indicated by: widely known prospective geology, including diatreme breccias; associated high sulphidation alteration; gold and copper mineralization; and geophysics (Schmidt, R.G., 1978, The Potential for Porphyry Copper-Molybdenum Deposits in the Eastern United States, U.S. Geological Survey). Pancon's 100%-owned Jefferson Gold Project nearly surrounds the former Brewer Gold Mine, and both Jefferson and Brewer are located 12 km along trend northeast from the producing Haile Gold Mine, which produced 146,100 ounces of gold in 2019.

## About Virtual Investor Conferences®

Virtual Investor Conferences (VIC) is the leading proprietary investor conference series that provides an interactive forum for publicly-traded companies to meet and present directly with investors.

A real-time solution for investor engagement, Virtual Investor Conferences is part of OTC Market Group's suite of investor relations services specifically designed for more efficient Investor Access. Replicating the look and feel of on-site investor conferences, Virtual Investor Conferences combine leading-edge conferencing and investor communications capabilities with a comprehensive global investor audience network.
