

Wesdome Announces 2020 Third Quarter Financial Results

03.11.2020 | [GlobeNewswire](#)

TORONTO, Nov. 03, 2020 - [Wesdome Gold Mines Ltd.](#) (TSX: WDO) (Wesdome; or the Company) today announces third quarter (Q3 2020) financial results. All figures are stated in Canadian dollars unless otherwise noted.

Mr. Duncan Middlemiss, President and CEO commented, "During Q3, Wesdome generated operating cash flow of \$25.5 million or \$0.18 per share and free cash flow of \$3.2 million, (net of an investment of \$13.9 million in Kiena), or \$0.02 per share, ending the quarter with a cash position of \$73.5 million (Q2 2020: \$66.7 million). Cash costs for the quarter were \$1,052 per ounce (US: \$790) and All-in sustaining costs were \$1,395 per ounce (US \$1,047). Both of these unit costs are currently above the high end of our full year guidance, however we believe the AISC will decrease to the upper end of full year guidance (\$1350/ounce). Free cash flow was impacted by investments in the tailings, hoist and ventilation upgrades at Eagle River. A total of \$2.8 million was spent on these projects during the quarter in order to advance future underground production to over 600 tonnes per day. In particular the hoist upgrade was longer in duration than originally planned thereby causing significant hoisting delays within the quarter. The upgraded hoist has since been successfully commissioned and is performing well. The ventilation upgrade construction work will continue into Q4 with the installation of a second fresh air fan on surface that will provide additional haulage capacity underground. The fan will be commissioned early in Q1 2021. During Q3 the company was able to significantly invest in Eagle upgrades and the advancement of Kiena, compared to Q2 which was much more affected by the pandemic.

With YTD 2020 total gold production of 70,272 ounces at an average grade of 15.1 grams per tonne (g/t Au) at the Eagle River Underground Mine, the Company is well-positioned to achieve its full year guidance range of 90,000 to 100,000 ounces at an average grade of 15 to 16.7 g/t Au.

At Kiena, full drilling and development capacity resumed in June. We are now currently operating seven underground drills, with the focus on converting inferred resources to the indicated category. We expect to publish an updated resource estimate in Q4 2020. We are also advancing development on the 111 metre level in order to position the Company to take a bulk sample. Future bulk sampling on the A Zone will provide an opportunity to assess the geological block model and rock quality characteristics and will provide additional information to complete the ongoing Prefeasibility Study ("PFS"), expected to be completed by H1 2021.

Key operating and financial highlights of the Q3 2020 results include:

- Gold production of 20,008 ounces from the Eagle River Complex, a 30.8% decrease over the same period in the previous year (Q3 2019: 28,910 ounces) due to lower grades and the impact of COVID-19:
 - Eagle River Underground 44,667 tonnes at a head grade of 13.8 g/t Au for 19,319 ounces produced, 33.1% decrease over the previous year (Q3 2019: 28,894 ounces).
 - Mishi Open Pit 11,533 tonnes at a head grade of 2.5 g/t Au for 689 ounces produced (Q3 2019: 15 ounces).
- Revenue of \$55.0 million, a 19.7% increase over Q3 2019 (Q3 2019: \$45.9 million).
- Ounces sold 21,700 at an average sales price of \$2,532/oz (Q3 2019: 23,450 ounces at an average price of \$1,957/oz).
- Earned mine profit¹ of \$32.1 million, a 20.0% increase over Q3 2019 (Q3 2019 - \$26.8 million).
- Cash costs ¹ of \$1,052 (US\$790) per ounce of gold sold (Q3 2019 of \$815 (US\$618) due to less ounces sold and the impact of COVID-19.
- All-in sustaining costs (AISC) ¹ of \$1,395/oz or US\$1,047/oz, a 3.8% increase over the same period in 2019 (Q3 2019: \$1,344/oz or US\$1,018/oz), due to lower ounces sold; partially offset by lower sustaining capital expenditures.
- Operating cash flow of \$25.5 million or \$0.18 per share¹ as compared to \$27.3 million or \$0.20 per share for the same period in 2019.

- Free cash flow of \$3.2 million, net of an investment of \$13.9 million in Kiena, or \$0.02 per share¹ (Q3 2019: free cash flow of \$9.2 million or \$0.07 per share).
- Net income of \$14.6 million or \$0.10 per share (Q3 2019: \$12.4 million or \$0.09 per share) and Net income (adjusted)¹ of \$15.5 million or \$0.11 per share (Q3 2019: \$12.4 million or \$0.09 per share).
- Cash position increased to \$73.5 million compared to \$66.7 million in the previous quarter.

1. Refer to the Company's 2020 Third Quarter Management Discussion and Analysis, section entitled "Non-IFRS Performance Measures"; for the reconciliation of these non-IFRS measurements to the financial statements.

Production and Exploration Highlights Achievements

Eagle River

- Although exploration drilling is currently operating at a reduced capacity due to COVID-19.
- With nearby development already established on the 772 and 622 m elevations.
- A surface fly drilling program has commenced with one drill to test regional geology.

Kiena

- The ongoing drilling program continues to focus on definition drilling of the 79 level.
- Seven underground drills are in operation. This drilling has continued to confirm the presence of mineral resources.
- In addition to the ongoing drilling, access development is currently being completed.
- Recent drilling completed from the 79 level exploration ramp has focussed on defining the 79 level.
- A 10,000 m surface drilling program has commenced to test several target areas.

Technical Disclosure

The technical content of this release has been compiled, reviewed and approved by Marc-Andre Pelletier, P. Eng, Chief Operating Officer, and Michael Michaud, P.Geo., Vice President, Exploration of the Company and each a "Qualified Person" as defined in National Instrument 43-101 - *Standards of Disclosure for Mineral Projects*.

Cautionary Note to United States Investors Concerning Estimates of Reserves and Resources

The mineral reserve and resource estimates reported in this news release were prepared in accordance with National Instrument 43-101 "Standards of Disclosure for Mineral Projects" (NI 43-101) as required by Canadian securities regulatory authorities. The United States Securities and Exchange Commission (the SEC) applies different standards in order to classify and report mineralization. This news release uses the terms "measured", "indicated" and "inferred" mineral resources, as required by NI 43-101. Readers are advised that although such terms are recognized and required by Canadian securities regulations, the SEC does not recognize such terms. Canadian standards differ significantly from the requirements of the SEC. Readers are cautioned not to assume that any part or all of the mineral deposits in these categories constitute or will ever be converted into mineral reserves. In addition, "inferred" mineral resources have a great amount of uncertainty as to their existence and great uncertainty as to their economic and legal feasibility. It cannot be assumed that all or any part of an inferred mineral resource exists, is economically or legally mineable or will ever be upgraded to a higher category of mineral resource.

ABOUT WESDOME

Wesdome Gold Mines has had over 30 years of continuous gold mining operations in Canada. The Company is 100% Canadian focused with a pipeline of projects in various stages of development. The Company's strategy is to build Canada's next intermediate gold producer, producing 200,000+ ounces from two mines in Ontario and Quebec. The Eagle River Complex in Wawa, Ontario is currently producing gold from two mines, the Eagle River Underground Mine and the Mishi Open pit, from a central mill. Wesdome is actively exploring its brownfields asset, the Kiena Complex in Val d'Or, Quebec. The Kiena Complex is a fully permitted former mine with a 930-metre shaft and 2,000 tonne-per-day mill. The Company has further upside at its Moss Lake gold deposit, located 100 kilometres west of Thunder Bay, Ontario. The Company has approximately 138.9 million shares issued and outstanding and trades on the Toronto Stock Exchange under the symbol WDO.

This news release contains forward-looking information which may include, but is not limited to, statements with respect to the future financial or operating performance of the Company and its projects. Often, but not always, forward-looking statements can be identified by the use of words such as plans, expects, is expected, budget, scheduled, estimates, forecasts, intends, anticipates, or believes, or variations (including negative variations) of such words and phrases, or state that certain actions, events or results may, could, would, might, or will be taken, occur or be achieved. Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Forward-looking statements contained herein are made as of the date of this press release and the Company disclaims any obligation to update any forward-looking statements, whether as a result of new information, future events or results or otherwise. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. The Company undertakes no obligation to update forward-looking statements if circumstances, management's estimates or opinions should change, except as required by securities legislation. Accordingly, the reader is cautioned not to place undue reliance on forward-looking statements. The Company has included in this news release certain non-IFRS performance measures, including, but not limited to, mine operating profit, mining and processing costs and cash costs. Cash costs per ounce reflect actual mine operating costs incurred during the fiscal period divided by the number of ounces produced. These measures are not defined under IFRS and therefore should not be considered in isolation or as an alternative to or more meaningful than, net income (loss) or cash flow from operating activities as determined in accordance with IFRS as an indicator of our financial performance or liquidity. The Company believes that, in addition to conventional measures prepared in accordance with IFRS, certain investors use this information to evaluate the Company's performance and ability to generate cash flow.
