

Contura Signs Agreement to Divest Cumberland Mine, Pennsylvania Assets

12.11.2020 | [PR Newswire](#)

Transaction Expected to Accelerate Contura's Strategic Exit from Thermal Coal Production

BRISTOL, Nov. 12, 2020 - [Contura Energy Inc.](#) (NYSE: CTRA), a leading U.S. supplier of metallurgical products for the steel-making industry, today announced a definitive agreement with Iron Senergy Holding, LLC (Iron Senergy) for the divestiture of Contura's Pennsylvania operations, including the Cumberland Mine in Greene County, Pennsylvania. The equity transaction is expected to close before December 31, 2020, and, upon closing, will transfer to Iron Senergy the subsidiaries that hold the Cumberland and Emerald mines and the associated coal reserves, mining permits and operations, infrastructure, equipment and transloading facilities.

The purchaser, Iron Senergy, has expressed its intention to continue operating the Cumberland Mine past Contura's planned exit at the end of 2022, thereby extending employment opportunities for the Cumberland workforce, maintaining a continued tax base for the local community, and sustaining business opportunities for Cumberland's vendors and a reliable supply for customers. Iron Senergy's plan also includes the development and integration of renewable energy in efforts to develop synergistic opportunities with regional utilities.

"In addition to the important benefits to Cumberland employees and the local community in Greene County, the signing of this agreement to divest Cumberland provides a way for both Contura and Iron Senergy to advance our respective strategic plans," said David Stetson, Contura's chairman and chief executive officer. "This transaction allows Contura to nearly complete our transition to a pure-play metallurgical company providing critical feedstock for steel production. Additionally, closing the transaction will meaningfully reduce our asset retirement obligations and collateralization requirements, allowing us to better focus our resources on the core mines in our portfolio and our strategy as solely a met producer."

According to the terms of the transaction, Iron Senergy will acquire all of the equity of the following wholly-owned Contura subsidiaries upon closing: Emerald Contura, LLC; Cumberland Contura, LLC; Contura Coal Resources, LLC; Contura Pennsylvania Land, LLC; and Contura Pennsylvania Terminal, LLC (together, the Pennsylvania Entities). Upon closing, Iron Senergy will post replacement reclamation bonds for the Pennsylvania Entities and assume their UMWRA collective bargaining agreements. Also, upon closing, Contura will provide \$20 million in cash consideration to Iron Senergy and will transfer its interest in existing cash collateral to Iron Senergy's surety provider as collateral for Iron Senergy's replacement reclamation bonds.

Iron Senergy will assume all reclamation obligations associated with the Pennsylvania Entities, estimated to be approximately \$10 million of undiscounted future cash outflows, which will release Contura from these obligations upon closing of the transaction.

The transaction is subject to a number of conditions to closing, and therefore, there can be no assurances that closing will occur when anticipated, or at all. The parties are working diligently to address all of these conditions.

ABOUT CONTURA ENERGY

Contura Energy (NYSE: CTRA) is a Tennessee-based coal supplier with affiliate mining operations across major coal basins in Kentucky, Pennsylvania, Virginia and West Virginia. With customers across the globe, high-quality reserves and significant port capabilities, Contura Energy reliably supplies metallurgical coal to produce steel.
